

### Domestic Fundamentals:

Edible oil basket traded with sideways sentiments at various markets. Palm oil, sunflower oil and soy oil prices corrected downwards at various markets. While, Mustard oil and groundnut oil traded steady at their respective markets.

#### **Soybean oil**

- CBOT Soy oil Oct Contract closed on green candle as USDA estimated 200 MMT soybean production down compared to last year. USDA has reasoned out to 'smaller crop and reduced exportable supplies' in its report for decline in production and exports.
- US soybeans' slow harvest has also supported the price rise.
- Domestic prices are trading sideways and might see gradual uptrend backed by festival demand.

#### **Palm oil**

- BMD prices took support of worries in US' soybean harvest and ramped up.
- Good import demand from India is also supporting international palm oil prices.
- Domestic palm oil prices are up backed by festival demand in market.

#### **Mustard oil**

- Mustard oil prices are likely to trade with sideways momentum to upward bias backed by festival season demand.
- However, recent correction in oil prices rendered negative Crush margin. In Rajasthan, most of the expellers are shut and only kachhi ghani is operational amid disparity in crushing.

**Outlook:** Edible oil basket is expected to trade with sideways to firm sentiments for the week
