Domestic Fundamentals:

Edible oil basket traded with weak sentiments at various markets. Groundnut oil and Mustard oil traded steady for the day. While, Palm oil, Sunflower oil and Soy oil markets traded down at various markets.

Soybean oil

- Domestic Soy oil market is under correction in tandem with weak CBOT soy oil prices in the past 3 days. Higher imports for October are also weighing on the gains as supply rose in the ports and pipelines.
- CBOT Soy Oil January contract is trading sideways in the range of 72.40-75.42 cents per pound.
- Brazil's Agriculture Statics Agency (CONAB) in its November assessment has raised Brazil's 2022/23 soybean crop estimate to 153.50 MMT from its previous estimate of 152.35 MMT, up by 1.15 MMT. CONAB rose soybean's acreage by 350,00 hectares to 43.24 million Hectares. Higher soybean crop is due to 4.2. percent rise in planted area.

Palm oil

- Domestic prices are trading sideways as its demand weakens in winter season.
- BMD Palm Oil Futures, January Contract traded down with heavy correction in crude oil prices and CBOT soy oil prices.
- Indonesia has increased palm oil reference price for Nov 16-30 period at \$826.58, up from \$770.88 per T for Nov 1-15 and thus the reference price crossing the threshold of \$800 per Tonnes and resulting in the resumption of export levies for Palm oil derivatives. Export levy for CPO, CPKO stands at \$85, and RBDPMOLIN to \$65, for RBDPO and RBDPMKO to \$68, and for Biodiesel at \$55. While, Export tax will also move up for CPO to \$33 from \$18, CPKO to \$49 from \$21, RBDPMOLIN to \$2 from 0.

Mustard oil

- Mustard oil prices traded sideways for the day. Gains in mustard oil are likely to be limited on behalf of correction in competing oils. However, good winter demand may push the prices at higher side.
- Cool weather in North India, is likely to boost mustard oil demand. Thus limits its fall. Overall, a sideways movement in mustard oil prices is expected.

Outlook: Edible oil basket is expected to trade with sideways sentiments with weak bias for the week
