

Domestic Fundamentals:

The market for edible oils traded sideways across various markets today. Soy oil witnessed weak momentum, while Palm oil, Mustard oil, Groundnut oil and Sunflower oil market closed with sideways momentum for the day.

Soybean oil

- In the Domestic market, the Soy oil market prices witnessed weak momentum for the day, amid uncertainty in the market.
- CBOT Soy oil prices closed with red candle on Wednesday following weakness in rival palm oil.
- NOPA's Soy oil estimate stood at 1.851 billion lbs, lower than the trader's expectation of 1.867 billion lbs. underpinned the soy oil prices.
- As of 19th April,'23, Argentina's national agency Buenos Aires grains exchange further downgraded the
 crop outlook to 22.5 MMT, down by 2.5 MMT from previous estimate of 25 MMT, citing the combined
 impact of a recent heat wave and a prolonged drought. Soil moisture deficit due to low precipitation
 has affected yield severely. The average yield for the current soybean crop stood at an average of 16.1
 Qtl/Ha.

Palm oil

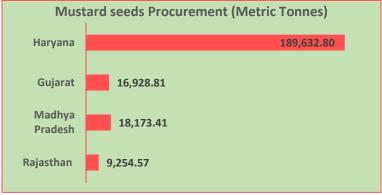

- Domestic market witnessed sidewaysmomentum for the day.
- International Palm oil futures traded down, following weakness in crude oil prices.
- According to the export agencies, Malaysia witnessed a decline in palm oil exports from the 1st to the
 15th of April. This decline is attributed to softening demand from importing countries, which may have
 built up excessive palm oil supplies. Additionally, ample supply of other competing vegetable oils
 globally may also weigh on palm oil exports, as it is losing pricing competitiveness.

Mustard oil

- Mustard oil prices traded sideways for the day.
- As the pace of NAFED's procurement of mustard seed is improving, prices are likely to be underpinned.
- However, weakness in competing oils is weighing on mustard oil.

• As of April 20th, 2023, NAFED has procured 16,928.81 metric tonnes (MT), 1,89,632.80 MT, 9,254.57 MT and 18,173.41 MT of seeds from Gujarat, Haryana, Rajasthan, and Madhya Pradesh, respectively.

A total of 2,34,001.09 MT of mustard seed, valued at Rs. 1,275.31 crores, has been procured from these states.

Groundnut oil

- Groundnut oil prices witnessed weak momentum for the day.
- Exports in March stood at 16,156.96 Tonnes compared to the export of 18,293.53 Tonnes in previous month. China's export demand made 94.09% of the total exports at 15,202.3 tonnes. However, on Yo-Y comparison exports are up from the exports of 273.22 tonnes.

Sunflower Oil

- Sun oil market traded weak for the day.
- International Sun oil prices fell as exporting countries have ample supply, while, import demand is down.

Rice bran oil

- Prices traded down for the day.
- Supplyside is dwindling amid slow processing, which may limit its fall in prices.

Outlook: Edible oil basket is expected to witness sideways momentum in prices for the week.
