Soybean oil

- In the Domestic market, the Soy oil market prices witnessed weak momentum in the markets.
- Volatile market has made the buyers cautious, impacting demand.
- CBOT Soy oil prices rose for the day due to short covering.
- During the period from January to April 2023, Argentina experienced a surge in its soybean imports from Brazil. This increase occurred against the backdrop of weaker soybean production in Argentina. In contrast, Brazil witnessed a significant jump in its soybean crop production, increasing from 130.50 million metric tons (MMT) to 155.00 MMT. Argentina is known as the world's largest exporter of soy oil; however, the decline in soybean production is expected to have an impact on its soy oil exports. Argentina's soybean imports from Brazil between January and April 2023 reached 943 thousand tonnes, surpassing the total imports of 289 thousand tonnes for the previous year (January to December).

Palm oil

- Domestic market witnessed weak momentum in prices for the day. Domestic prices are likely to rise in the coming days, following rising international palm oil futures market.
- BMD Palm oil BMD Palm oil Malaysia most active August contract on 19th May, opened at 3,388 MYR/MT, lower than previous close of 3,392 MYR/MT. It touched the lower level at 3,375 MYR/MT and rebounded to upper level at 3,494 MYR/MT. Prices closed at 3,480 MYR/MT, up by 88 points compared to previous days' closing price. Prices traded up following rising prices of CBOT Soy oil.
- Indonesia has decided to decrease the export tax on Crude Palm Oil (CPO) to \$74 per ton from \$124 per ton. Additionally, the exports levy has been adjusted to \$95 per ton from \$100 per ton. This adjustment comes as the reference prices for CPO shipments between May 16 and May 31 have declined to \$893.23 per ton, in contrast to the previously set price of \$955.53 per ton.

Mustard oil

- Mustard oil prices experienced an upward trend during the trading day, particularly for expeller oil. The market witnessed an increase in prices due to limited supply caused by the closure of a significant number of expeller mills. This closure was a result of disparities in seed crushing activities.
- Mustard seed's arrivals have slowed down at various markets as farmers are not fetching good prices. Demand from the millers underpinned the prices. However, the upward trend is likely to be short lived as competing oils prices are declining.
- Crushing of seeds is in disparity, thus mostly Kacchi ghani plants are operational in key crushing regions.
- As of 15th May, 2023, NAFED has procured 28,143.62 metric tonnes (MT), 3,47,105.00 MT, 61,706.02 MT and 1,02,940.05 MT of seeds from Gujarat, Haryana, Rajasthan, and Madhya Pradesh, respectively. A total of 5,40,713.84 MT of mustard seed, valued at Rs. 2,946.89 crores, has been procured from these states.

- Black Sea grain deal extended for 2 more months. Turkish President Tayyip Erdogan announced that the Ukraine Black Sea grain deal has been extended for two more months. This extension comes just in time, as Russia was considering quitting the pact due to difficulties with its grain and fertilizer exports. Erdogan expressed his gratitude to the Russian and Ukrainian leaders, as well as UN Secretary General Antonio Guterres, for their assistance in prolonging the deal. The agreement, initially brokered by the United Nations and Turkey, was established in July of the previous year to address the global food crisis exacerbated by Russia's invasion of Ukraine, a major grain exporter. Initially set for 120 days, the pact was extended by Moscow for an additional 120 days in November, but later in March, it agreed to a 60-day extension, which was due to expire on May 18 unless certain conditions regarding Russian agricultural exports were met.
- Department of Revenue of Ministry of Finance, has issued Notification No.37/2023-Customs dated 10th May, 2023 that shipment of crude Sunflower Oil and crude Soybean Oils will be allowed to be cleared under TRQ at NIL duty with effect from 11th May, 2023 till 30th June 2023. This will facilitate clearance of Cargo presently lying at various ports under bond storage and also the cargos which are under voyage. This will weigh on sun oil prices.

Rice bran oil

- Prices traded steady for the day.
- Rice Bran De-oiled cake (DORB) prices are rising as processing plants have shut down.
- Majority of Rice bran processing plants have shut by the 1st week of May, which will limit the fall in prices.
