### Outlook:-

Refining margins disparity for CSO Argentina rose compared previous weeks as prices of soy oil in international markets traded sideways on back of downgrade in crop condition in US and rains in parts of US. We expect soy oil refining margin to achieve parity in medium term due to expectation of firm prices of soy oil in Indian markets.

Refining margin parity fell slightly for CPO. RBD palmolein refining margin parity also fell as international market price moved sideways trend. We expected CPO to retain parity in medium term.
