

Wheat Domestic Fundamentals:

- **Steady to weak trend continued in cash wheat market.** Recent rains, favourable for standing crop, have pressurized cash market further. Market participants have started saying around 100 million tonne crop size this year.
- **Wheat quality in Gujarat has been reported excellent this year** and traders/exporters offered higher price for newly harvested crop, just started hitting into the market. Traders offered Rs 1720/Rs 1750 per qtl. for new crop. Some multinational companies have planned to store local wheat in Gujarat for export purpose. Market participants expect active buying by exporters by the end of this month.
- **According to IBIS (provisional data), export of wheat in the month of January** was 5.01 Lakh tones which is around 36% less than last year at the same month, which was 7.81 Lakh tones in December 2012.
- **Indian Exporters have entered in forward contract for March delivery** at USD 265-266/MT of Gujarat, Madhya Pradesh and Rajasthan origin wheat. For April delivery forward contracts have concluded at USD 262/MT, according to traders.
- **PSU's wheat export bid may further fall in coming tenders due to recent** harvest concluded in Australia and lower FOB there. Indian wheat export is becoming noncompetitive to Australian export as Australian FOB for Soft Wheat is hovering near USD 250-255/MT.

International Market Update:

- **As per latest USDA update, global 2013/14 wheat supplies** have been lowered by 1.1 million tonnes with lower beginning stocks for Argentina and Russia and a 0.8-million-ton reduction in world production. Kazakhstan production for 2013/14 is lowered 1.6 million tons based on the latest official estimates which raised harvested area, but lowered the yield sharply from indications based on earlier harvest reports.
- **Partly offsetting these reductions is a 0.6-million-ton** increase for Brazil where better-than-expected yields in southern wheat areas more than offset earlier freeze damage farther north. Ukraine production is also raised, up 0.3 million tons, on final government estimates.
- **Foreign wheat exports for 2013/14 are lowered as reductions** for Kazakhstan and Argentina more than offset an increase for the European Union. Kazakhstan exports are lowered 1.5 million tons with the smaller crop. Exports are lowered 1.0 million tons for Argentina based on the slow pace of shipments.
- **European Union exports are raised 1.5 million** tons reflecting the rapid pace of shipments and licensing. Wheat feeding is lowered for the European Union as increased corn imports and feeding free up wheat for export. Wheat feed use is lowered 0.2 million tons for South Korea as increased corn imports and feeding also displace wheat in that market.
- **The Lebanese government has purchased 25,000 tonnes** of milling wheat t from Russia at \$309.67 a
