

Wheat Domestic Fundamentals:

- **In PEC Wheat export tender of 70,000 MTs from Krishnapatnam** port 5 bids were received. Highest bid was by Amira Foods at \$274.90/MT for 35,000 tonnes followed by Glencore at \$271.30/MT for 35,000 tonnes and the lowest bid was at \$261.00.
- **In STC Wheat export tender of 1, 10,000 MTs from Mundra port** 3 bids were received. Highest bid was by Glencore at \$271.10/MT for 40,000 tonnes followed by Alghurair at \$270.10/MT for 40,000 tonnes and the lowest bid was at \$263.67.
- **The Inflation of wheat has increased to 7.55% in** the month of January as compare to 7.40% in the month of December. WPI has increased to 220.9 in January as compare to 220.5 in the month of December.
- **Recent showers of rains are expected to boost yield of standing** wheat crop. Crop condition throughout major producing states is in good to excellent shape so far. Market participants have started talking around 100 million tonne crop size. Under current crop condition and favourable weather India can expect the best yield realized in 2011-12.
- **However, temperature in Feb-March would remain the crucial factor** for the final size of the crop. Wheat quality in Gujarat has been reported excellent this year and traders/exporters offered higher price for newly harvested crop, just started hitting into the market. Traders offered Rs 1720/Rs 1750 per qtl. for new crop. Some multinational companies have planned to store local wheat in Gujarat for export purpose. Market participants expect active buying by exporters by the end of this month.
- **According to IBIS (provisional data), export of wheat in the month of** January was 5.01 Lakh tones which is around 36% less than last year at the same month, which was 7.81 Lakh tones in December 2012.

International Market Update:

- **Tunisia's state grains agency purchased 75,000 tonnes of soft wheat** in three consignments of 25,000 Tn each at \$301.95 a tonne c&f, \$299.15 a tonne c&f and \$299.92 a tonne c&f and the durum wheat was purchased in three consignments at \$419.29 a tonne c&f for 17,000 tonnes, \$422.29 a tonne c&f for 17,000 tonnes and \$418.27 a tonne c&f for the rest.
- **Recent showers of rains and expectation of more rains in wheat** growing belts in China has given much awaited respite to wheat growers in China. Heavy rainfall is considered an unexpected bonus since the winter climate is extremely dry in North China. February precipitation in winter wheat has accumulated to 0.50 to 2 inches.

Domestic market Outlook: Cash wheat market is likely to trade steady to weak in the short term.
