

## Wheat Domestic Fundamentals:

- **Wheat export markets for India remains favourable basically** on two counts. US may impose trade sanction on Russia. Supply from Ukraine would decrease considerably as tension between Russia and Ukraine continues. Under this background buyers from overseas market are turning to India and prices in domestic market have increased by \$10 to \$15 per tonne in last three weeks.
- **Harvesting in major wheat producing states is about to start and** pressure on prices started surfacing now on the physical market. FCI and other procurement agencies would not be able to procure higher quantity of premium grade in M.P. due to discolored grains affected from rains and hailstorm in the last week of February. However, other states contribution is expected to remain satisfactory.
- **In MMTC Wheat export tender of 80,000 MTs from Kakinada port 8 bids** were received. Highest bid was by Glencore at \$281.05/MT for 30,000 tonnes followed by Vitol at \$277.59/MT for 30,000 tonnes and the lowest bid was at \$274.51.
- **In PEC Wheat export tender of 70,000 MTs from Kandla port 9 bids** were received. Highest bid was by Alghurair at \$282.10/MT for 35,000 tonnes followed by Midstar at \$281.39/MT for 35,000 tonnes and the lowest bid was at \$272.11. India may receive higher quotes in next bid.
- **Indian wheat export to Saudi Arabia is also forecast to increase to 200,000 tonnes** this year, up from 60,000 tonnes shipped last year. India was sitting on a wheat stock of around 21 million tonnes as on March this year. Harvesting is just to commence and India expects record production of over 95 million tonne this year.
- **Private trade would remain active in Gujarat, M.P, and Rajasthan for premium** grade as export opportunity is there. Market participants say that wheat quality is affected considerably in Madhya Pradesh and discoloured wheat would be used by millers. Actual loss is still being assessed and the clear picture would emerge in a week or two.

## International Market Update:

- **Global 2013/14 wheat supplies are raised slightly with a 0.8-million-ton** increase in world production. Production is raised 1.1 million tons for India and 0.5 million tons for Australia. China is lowered 0.3 million tons, Uruguay by 0.3 and Paraguay by 0.2 million tons respectively.
- **Strong demand in the Middle East and North Africa boosts 2013/14** world wheat imports 3.0 million tons. Imports are raised for Iran, Saudi Arabia, Morocco, Syria, Algeria, Iraq, and Turkey. Exports are raised for the European Union, Russia, Serbia, and Turkey. European Union exports are raised 1.5 million. For Russia, higher wheat imports and reduced wheat feeding support a 1.0-million-ton increase in wheat exports.

**Domestic market Outlook:** Cash wheat market is likely to trade steady to slightly firm in the short term.
