

## Wheat Domestic Fundamentals:

- **Wheat stock in central pool warehouses was registered at 17.83 million T** on 01 April compared to 22.35 million T on 1st March 2014. The highest accumulated stock is in Punjab (7.00 million T) followed by Haryana (2.94 million Tonne) and Madhya Pradesh (2.12 million tonne) as on 01.04.2014.
- **Unexpected rains, accompanied by strong winds, in larger parts** of Punjab and Haryana in the last week of March and the first day of April may affect quality of wheat. Standing crop has flattened and it may reduce yield. Wheat crop in districts like Ferozpur, Gurdaspur, Pathankot, Mohali, Tarn Taran in Punjab and Palwal, Yamunanagar in Haryana has flattened and more rains can adversely affect the yield and quality.
- **Lodging has taken place in several wheat fields at different places in Punjab** because of rain and strong winds," an official of Punjab Agriculture department said. Lodging refers to term used to describe crop falling flat on the ground due to heavy rain and winds which causes yield loss in crop. Rains at this stage could have negative impact on early sowed crop.
- **Stronger INR, likely ban on wheat and non-basmati rice export** from govt.'s stock would cut export quantity (around 20 to 25 percent collectively) of wheat and rice considerably this year despite attractive price in global market. Shortage of premium quality wheat (from M.P. & Rajasthan) may encourage wheat prices earlier than expectation. If global wheat market stays steady, export through private channel would continue. However volume would decrease.
- **Wheat production is likely touch record level of 96.03 million tonne** this year(2013-14) despite considerable loss of crop in parts of Madhya Pradesh and Rajasthan. The main reason for higher production is attributed to higher area coverage and favorable weather throughout the season except the second fortnight of February when heavy rains fall and hails storm affected the quality of grains adversely.

## International Market Update:

- **South Korean trading firm Daewoo International sold 50,000 tonnes of wheat** to Bangladesh for \$325.45 a tonne CIF. The proposed imports are part of a plan by the Directorate General of Food, the state grains buyer, to ship in 850,000 tonnes of wheat in the year to June 2014.
- **Algeria's state grains agency OAIC bought between 250,000 and 300,000 tonnes** of milling wheat at around \$316-317 a tonne C&F. The origin of the wheat bought this week was optional but it was expected to be sourced from France, the traders said.

**Domestic market Outlook:** Cash wheat market is likely to trade steady to weak.
