

### **Wheat Daily Report**

16th July 2014

#### **Wheat Domestic Fundamentals:**

- Wheat cash markets continue to head towards north way direction on improved demand from flour millers ahead of festive season starting from August. Wheat price in Delhi market improved from Rs 1550 per qtl to Rs 1580 perqtl. In last three days. Millers from Delhi, Rajasthan and south India are sourcing wheat from Uttar Pradesh right now as wheat is available at competitive price. However, higher demand for wheat has encouraged wheat price getting firmer in Uttar Pradesh.
- Wheat cash markets in Uttar Pradesh get firmer on the back of improved demand from Rajasthan and Delhi. Demand from roller flour mills have improved during last one week.festive season in India starts from 1st August and continue till November and during this period demands for wheat product increase considerably.
- Wheat is being loaded from Mathura to Rajasthan, Kota at Rs 1600 per qtl. while it is being traded at Rs 1610 per qtl. in local market. Flour miller in Delhi is sourcing wheat from Bulandsahar and Mathura markets in the range of RS 1570 to Rs 1580 per qtl.almost higher by Rs 25 per qtl. from last week.
- Prices in Uttar Pradesh market is likely to go up by Rs 20 to RS 25 per qtl. this week as supply side is getting weaker. Farmers holding have decreased now from 30 percent to 20 percent now as per traders source. Lower supply from farmers end may remain supportive for fundamental cash market in the weeks ahead.
- Despite of slower start of procurement, wheat procurement by the end of June touched 27.9 Mn t as expected in April by Agriwatch. It is 10% higher from last year due to higher lifting from Punjab, Haryana and MP.

### **International Market Update:**

- Lebanon has purchased about 7,000 tonnes of Black Sea-origin milling wheat. The price for the 12.5 percent protein content wheat was \$253 a tonne c&f. Importers in Indonesia have also purchased an unknown volume of Black Sea wheat of 11.5 percent protein in containers at \$271 a tonne c&f.
- Private Iraqi grain traders have not been able get trucks across the Syrian border to complete a deal, first agreed in June, to buy 200,000 tonnes of wheat from Syria's state grain body due to conflict raging in both countries.
- US wheat export may hamper with increasing freight cost in the months ahead. A rally in freight rates would be detrimental to the chances of U.S., Australian and Argentine wheat in Middle Eastern markets. Russian wheat would probably be the winner now U.S. soft red winter wheat, on a free-on-board basis, was currently \$6 a ton cheaper than Russian and Ukrainian wheat and \$5 a ton cheaper than Western Europe origins. Black Sea Region crop started hitting the market and Russian FOB quotes are hovering in the range of \$245 to \$250 per tonne.
- The wheat market was mostly higher in pre-long weekend book-squaring and consolidation. Weekly export sales of 567,500 MT beat trade expectations of 300-450,000 MT thanks to Brazil taking 140,500 MT.

#### **Domestic market Outlook:**

Wheat cash market may stay steady to slightly firm.
