

Wheat Domestic Fundamentals:

- The CACP (Commission for Agricultural Costs and Prices) would announce the MSP for rabi crop soon and market expects marginal increase in the MSP of wheat for 2014-15. Market participants are of the view that MSP may be increase from 2 to 3 percent for rabi crops to contain the inflationary pressure. Experts assume that wheat MSP might be fixed in between Rs 1420 to RS 1450 per quintal for ensuing rabi season.
- Cash wheat market may trade slightly up from current level as arrivals in major markets of producing states like Uttar Pradesh, Punjab, Haryana and Bihar have contracted in recent weeks due to farmers engagements in paddy trans-planting. Lower arrivals from farmers end and increasing demand for wheat products ahead of festival season would remain supportive for the cash wheat market fundamentals. Wheat is being traded in the range of Rs 1450 to Rs1575 per qtl. in various markets. Agriwatch expects market to move up at least by Rs 30 to RS 45 per qtl. from current level. Supply from private trades would continue.
- However, any major spike in wheat market in the third quarter is unlikely due to intended supply of 10 million tonne in next eight months from central pool stock at the base price of Rs 1500 and Rs 1575 per qtl. for old and new crop respectively. As wheat prices in Uttar Pradesh, Punjab, Haryana and Rajasthan are hovering around Rs 1450 to Rs 1575 per qtl. currently, offtake from central pool would be lower than expectation.
- With higher allocation of wheat govt. has ensured ample availability for the rest of the year and any attempt to drag wheat price up would not be materialized. Export window is not wide open now with declining price world over and private trades would have to release their stock in domestic market. Global FOB quotes range \$230 to \$235 per tonne(US & Black Sea Region) while Indian exporters are not able to offer below \$280 per tonne. The huge difference of \$50 per tonne would not allow smooth export from India In next four –five months.

International Market Update:

- Private importers in Pakistan have purchased about 55,000 tons of Black Sea-origin wheat probably from Russia or Ukraine around \$261 a tons c&f for September shipment. They have been making large imports of wheat as harvesting was not good this year.
- Lebanon has purchased about 7,000 tonnes of Black Sea-origin milling wheat. The price for the 12.5 percent protein content wheat was \$253 a tonne c&f. Importers in Indonesia have also purchased an unknown volume of Black Sea wheat of 11.5 percent protein in containers at \$271 a tonne c&f.
- Private Iraqi grain traders have not been able get trucks across the Syrian border to complete a deal, first agreed in June, to buy 200,000 tonnes of wheat from Syria's state grain body due to conflict raging in both countries.

Domestic market Outlook:

Wheat cash market may stay steady to slightly firm.
