

Wheat Domestic Fundamentals:

Wheat Daily Report 11th August 2014

- Major wheat cash markets trade steady to slightly firm due to restricted arrivals as farmers are busy with kharif sowing. Wheat release from central pool stock through tendering process is expected from next week. Besides demand from south and north Indian miller's continues. In Delhi market wheat traded Rs 15 per qtl. up to Rs 1590 per quintal in last three days.Market participants say that uptrend in Delhi market would not continue as rescheduled tendering date would remain restrictive to the market fundamental. Wheat price may hover in the range of RS 1580 to Rs 1600 per qtl.. Old wheat sourced from Govt. godowns in Delhi would cost around Rs 1560/1570 including freight and labour.
- According to IBIS (provisional data), export of wheat in the month of July was 1.37 Lakh tones which is around 69% less than last year at the same month, which was 4.46 Lakh tones in July 2013. The reason behind the lower export is attributed to disparity from other exporting countries like U.S.A., Russia and Ukraine.
- Export demand for Indian wheat has touched its bottom due to negative parity. Major exporters like US, Russia,Ukraine and Australia offer wheat in the range of \$240 to \$252 per tonne on FoB basis which is lower by\$30 to \$35 per tonne against Indian offer at \$282/283 per tonne.The price difference is likely to continue as Australia, Russia and US would remain aggressive sellers in next four-five months.
- The CACP (Commission for Agricultural Costs and Prices) would announce the MSP for rabi crop soon and market expects marginal increase in the MSP of wheat for 2014-15. Market participants are of the view that MSP may be increase from 2 to 3 percent for rabi crops to contain the inflationary pressure. Experts assume that wheat MSP might be fixed in between Rs 1420 to RS 1450 per quintal for ensuing rabi season.

International Market Update:

- Unexpected rains at the time of wheat harvesting during mid July in France and Germany have impacted grain quality and availability of milling grade may decrease in these countries. This may encourage European buyers to source milling grade wheat from US. Crop quality in Poland too is similar. Report of higher export sales in recent weeks in US points to the emerging scenario in global wheat market. U.S. export sales of wheat were 801,007 metric tons in the week-ended July 24, up 81 percent from a week earlier, according to the U.S. Department of Agriculture.
- However, uptrend in CBOT futures and US FoB is unlikely to continue .Marketable surplus in exporting countries is ample and aggressive selling strategy by Russia Ukraine at around \$243/45 per tonne for August sep delivery would not allow market to gain continuously. Global market is likely to trade in the range of \$240 to \$260 per tonne on FOB basis.US offers wheat at \$256 per Tonne.The \$10 per tonne difference between US and Black sea Region may continue in this month too.

Domestic market Outlook:

Wheat cash market may stay steady to slightly firm.
