

Wheat Domestic Fundamentals:

- **Wheat prices slightly moved up in major cash market due to seasonal factors** and restricted arrivals from private ends during the week under review. Wheat FAQ in Delhi market moved up from Rs1580 to Rs 1615 per qtl. Wheat in Delhi is coming from Uttar Pradesh, mainly from Bulandshahar region and is being delivered at Rs 1600 per qtl. Loose price in Narela mandi is hovering in the range of Rs 1540 and an increase of Rs 25 per qtl. has been recorded in this market too. Arrival have decreased considerably and private millers have turned to FCI stock to fulfill their additional requirement.
- **Wheat prices in Madhya Pradesh have been steady at Rs 1600 per qtl.** While in Rajasthan it moved up from Rs 1550 to Rs 1580 per qtl. Wheat loading from Rajasthan to Bangalore has been reported at Rs 1840 per qtl on delivered basis. There is no rake loading for south India reported from M.P. this week. Fresh buying is expected from next week as Dashhara is round the corner and demand for wheat products is expected to increase. Major festival Dipawali too is in October so wheat demand would increase in the weeks ahead.
- **According to IBIS (provisional data), export of wheat in the month of August** was 0.43 Lakh tonnes which is around 69% less than last year at the same month, which was 1.37 Lakh tones in July 2013. The reason behind the lower export is attributed to disparity from other exporting countries like U.S.A., Russia and Ukraine.
- **Recommendation by CACP for wheat MSP is most likely to be accepted by** the govt. for ensuing season 2015-16, starting from April, 2015. Commission for Agricultural Costs and Prices has suggested to hike of Rs 50 per qtl for wheat to Rs 1450. However, it will not impact current price of wheat as supply side would be at comfortable level.
- **As export disparity continues to hover in the range of \$35 to \$37 per tonne**, export volume is unlikely to improve in sept/Oct too. As lean season has started in India, no major fall from current level is expected in the third quarter of the year. India would be able to export some quantity in neighboring countries like Bangladesh, Shrilanka.
- **Wheat stock in central pool as on 1st Sept., 2014 was registered at 354.98 lakh tonne** which is almost 2.5 times higher than 140 lakh tonne required on 1st October, 2014 under buffer and strategic reserve.

International Market Update:

- **USDA has said in its latest release that global wheat production will** touch at 719.95 million tonne. It is .05 percent higher than August estimate. The reason of higher production estimate is mainly attributed to higher production in Ukraine and EU. Overall wheat stock will increase by 5.3 percent from last year.
- **Egypt had bought 60,000 tonnes of French wheat from Granit** and 60,000 tonnes of Romanian wheat from Bunge at an average price of \$258.89/tonne (CiF). Earlier Egypt had stopped buying from France as they don't allow import of wheat with moisture content was more than 13 percent whereas in 2013 the average moisture content of France wheat was 13.5. In June, Egypt raised its tolerance again for moisture content to 13.5 percent, albeit with heavier penalties, but had not made a French wheat purchase due to lower price offered by Russian, Romanian and Ukrainian.
- **South Korean mill CJ Cheiljedang Corp bought 21,200 tonnes wheat** (max. 10.5 protein) at Fob around \$260-263/tonne and 4,900 tonnes wheat (max. 8.5 protein) at Fob \$300/tonne from U.S. which is scheduled for shipment between Jan. 1 and 31, 2015.
- **The International Grains Council raised its forecast for global wheat** production in 2014/15 to 713 million tonnes, up from a previous forecast of 702 million. Better production in Russia, the European Union and China is the main reason for increase in production estimate.

Domestic market Outlook:

Wheat cash market is likely to trade steady to slightly weak.
