

Wheat Domestic Fundamentals:

- **FCI has invited bids fir 1Lakh Tn wheat selling through tender in Haryana region** at reserve price of Rs 1500/quintal just to augment supply in the open market especially for the flour millers in the month of October. It will restrict open market from firming up in the near term. More tender for wheat selling is likely in the third quarter as government has to sell almost 10MMt wheat in the rest of the current marketing year.
- **Wheat stock in central pool warehouses was registered at 32.26 million T** on 01 October compared to 35.17 million T on 1st September 2014. The highest accumulated stock is in Punjab (12.36 million T) followed by Madhya Pradesh (6.62 million tonne) and Haryana (5.89 million Tonne) as on 01.10.2014.
- **Export opportunity of Indian wheat to other countries is lower** due FOB imparity. India Fob at Kandla port is around \$273-278/Tn as compare to Australia (\$264-267), U.S. (\$250-255) and Russia (\$230-235). In coming days domestic prices is going to increase due to increase demand by festive season therefore export is going to be on more lower side.
- **According to IBIS, export of wheat in the first week of October** was around 22 Thousand Mt. The major export destination of Indian wheat was UAE from Kandla port which accounted 20 thousand MT at an average FOB price of \$280.97/Tn .Other countries were Taiwan, Sri Lanka, Qatar, Bahrain, Malaysia and Philippines.
- **According to IBIS (provisional data), export of wheat in the month of September** was 0.52 Lakh tonnes which is around 70% less than last year at the same month, which was 1.79 Lakh tones in September 2013.The reason behind the lower export is attributed to disparity from other exporting countries like U.S.A., Russia and Ukraine.

International Market Update:

- **Glencore, Vitol and Mesopotamia got the tender to supply 2, 00,000 tonnes of milling wheat to Turkey** grain board. They got the tender in the range of \$262-\$268 a tonne c&f and have to deliver shipment between Oct. 25 to Nov. 20.. The wheat is likely to be sourced from a range of origins including Russia, Ukraine, the European Union and United States.
- **Russia got the latest tender of GASC's of 55,000 Tonne wheat** of 12.5 percent protein content at \$239.30 a tonne on a free-on-board basis (FOB).The tender has given the necessary support to the declining wheat prices in Russia; however it may further move southward as export demand is reducing due to price competitiveness.
- **USDA has said in its latest release that global wheat production will touch** at 719.95 million tonne.It is .05 percent higher than August estimate. The reason of higher production estimate is mainly attributed to higher production in Ukraine and EU. Overall wheat stock will increase by 5.3 percent from last year.
- **Egypt had bought 60,000 tonnes of French wheat from Granit** and 60,000 tonnes of Romanian wheat from Bunge at an average price of \$258.89/tonne (CiF). Earlier Egypt had stopped buying from France as they don't allow import of wheat with moisture content was more than 13 percent whereas in 2013 the average moisture content of France wheat was 13.5. In June, Egypt raised its tolerance again for moisture content to 13.5 percent, albeit with heavier penalties, but had not made a French wheat purchase due to lower price offered by Russian, Romanian and Ukrainian.

Domestic market Outlook:

Wheat cash market is likely to trade steady to slightly firm.
