

Wheat Domestic Fundamentals:

- **According to IBIS, export of Indian wheat in the second week of March (09-15 March)** was around 1806 MT at an average FoB price of \$291.43/tonne. The major export destination of Indian wheat was UAE from Mundra port which accounted 700 MT at an average FOB price of \$304.77/Tn .Other major countries were Malaysia and Taiwan.
- **Recent rains accompanied by strong winds and hailstorms has damage standing** crop up to 40% in Baran ,Bundi and Kota region of the state. It is considered the major wheat growing belt in Rajasthan. Rains during maturity state have also affected the original quality and color of the grain. The clear picture would emerge in 7-10 days with opening up of weather. Current damage is believed to reduce the final size of the estimated crop of the sate by 15-20 percent. The only silver lining is that wheat crop in Ganganagar,Hanumangarh and Bhiwara is in good shape as of now.
- **Wheat crop at almost harvesting stage in MP is not showing good sign** with Lessing out of fresh showers of recent rains and hailstorms. These developments have affected the normal quality of grains negatively. Crop loss assessment continues and clear picture would come by the end of this week. Grains of harvested crop have discolored and have lost to receive the hope of premium price. Premium quality wheat is being traded at Rs 1800 per quintal while normal quality is sold out in the range of Rs 1400-1450 / quintal. The lack luster grains are being traded Rs1200-1300/ quintal.
- **Bad weather and unseasonal rains has badly affected wheat crop in Gujarat** .Traders fear that 75% of new crop has almost discolored, however yield is considered to remain almost normal. Sourcing quality wheat in Gujarat market this year could not be easy and millers would have to pat premium price for quality wheat. Maximum wheat (almost 80%) is likely to be consumed by millers and traders say that for branded segment millers would have to adopt import option for quality wheat in south India.
- **Likely lower FoB quote for wheat By Russia would not allow global wheat market to get firmer** in the months ahead. It would affect Export opportunity for India also. Indian new wheat is being traded at Rs 1350 to Rs 1500 currently while Russia can offer wheat at \$205 per tonne in forward months (July-August) while India cannot offer wheat below \$255/260 per tonne at any case as MSP of Indian wheat is Rs 14500 per tonne. Right now US wheat is more competitive than Indian wheat and Indian exporters may see tough time ahead.

International Market Update:

- **Korea's largest feed maker, Nonghyup Feed Inc. (NOFI), purchased 53,000 tonnes of feed wheat** at \$205.88/ tonne c&f plus a \$1.50 a tonne surcharge for additional port unloading for September shipment .The wheat can be sourced from the Black Sea region, United States, Canada, Australia.
- **Russia's new wheat crop is expected to hit the local market by June end.** Standing crop is in good condition and bumper production prospect looms large given the normal weather condition over the main growing regions. Market experts see wheat price to decrease by 9 percent in next three months. Wheat having 12.5 percent moisture content might be available at \$205 per tonne on FOB basis by the end of June This year prices of old crop is hovering in the range of \$225 to \$226 per tonne on a Fob Black Sea Basis. In the first week of March around 51,000 tonne wheat from Russia has been exported. Since the beginning of the current MY Russia has exported around 19 million tonne wheat.
- **U.S. wheat futures are going northward on concerns over potential yield** losses due to dry weather across key producing regions in the country but there is a possibility of rain after a week and is expected to push the prices down. However, if the weather remains the same the uptrend may continue.
- **Bangladesh's state grains buyer received the lowest offer of \$243.69/tonne CIF** for 50,000 tonne from Phoenix Commodities. Other offers were \$243.95 and \$254.90 a tonne CIF. The offers must remain valid until March 25 and has to be shipped within 40 days after contract signing.

Domestic market Outlook: Wheat cash market is likely to be steady to slightly weak.
