

Wheat Domestic Fundamentals:

- **Mostly cash market remained closed on Friday due to Maharashtra/labour day.** Wheat cash market trades steady to slightly firm in major markets yesterday amid private trades increased buying interest for premium quality wheat in MP, Rajasthan and Gujarat. Local millers are active in Uttar Pradesh and they buy luster loss wheat at Rs 1350 to Rs 1400 per qtl. Wheat arriving in various markets of UP is not up to the mark, big companies like ITC,LD and others are not active at this point of time.
- **In a latest development, the Centre has decided to reimburse the amount of** value cut from the minimum support price (MSP) for wheat to the procurement agencies in six states. This assistance from Centre has come after easing the quality norms for wheat procurement in six states including Punjab and Haryana. Other states are Madhya Pradesh, Rajasthan, Uttar Pradesh and Gujarat.
- **According to IBIS, export of Indian wheat in 20 th to 26 th April 2015 was** around 12131 MT at an average FoB price of \$267.09./tonne. The major export destination of Indian wheat was UAE from Pipavav/Kandla port which accounted 9561 MT at an average FOB price of \$271.91/Tn .Other major countries were Taiwan and Nepal.
- **Sharbati wheat from Madhya Pradesh has started firming up in local mandis despite** quality loss due to inclement weather at the harvesting stage. Prices in the wholesale market have increased by 25% as compared to last year. Sharbati is premium wheat from M.P. and is famous for its quality and taste throughout India and world.Its demand has suddenly spured up and private party are active to get maximum quantity. It is used for making flour, pasta, biscuits and is also exported to EU, Japan and other Asian countries. This year 50 percent sharbati wheat got affected and so demand is higher than present supply.
- **Wheat stock in central pool as on 16.04.2015** was registered at 191.43 lakh tonne. Notably the season started with172.21 lakh tonne wheat in central pool. Lower pace of procurement is due to delayed harvesting and inclement weather prevalent in April. The pace of procurement will get momentum by the end of this month. Stock postion in different zone has been reported at 184.57 tonne. Out of which north zone has maximum quantity(117.41 lakh tonne) as on 16 .04 .2015. Besides, there is 3.62 lakh tonne wheat is lying in mandis while3,24 lakh tonne is in transit phase.

International Market Update:

- **Russian wheat price may increase in the weeks ahead when the govt** removes the export tax. Russian has to decide on wheat export duty in mid May and has to set up a new mechanism in case it needs to act quickly to regulate trade in the future. The short-term effect of removing tax to zero, may increase wheat prices,first of all in southern export regions. Russia may use floating tax structure. If a floating tax is indeed introduced, it would mean higher risks for wheat exporters and lower income for farmers.The current tax is levied at 15 percent of the customs price plus 7.50 euros, but not less than 35 euros (\$39) a tonne.\
- **Black Sea wheat to Asia for July-August shipment is being** offered at \$210 a tonne, including cost and freight, down from \$240-\$250 a tonne two weeks ago. That compares with \$245 a tonne C&F for a similar standard of Australian wheat.

Domestic market Outlook: Wheat cash market is likely to trade range bound to weak.
