

Wheat Domestic Fundamentals:

Cash wheat market traded mixed on Wednesday amid declining arrivals in all major markets. Prices of wheat are likely to trade range bound in the short term. Premium quality would continue to trade firm due to short supply. Overall sentiment for wheat market remains firm.

As on 16.5.2015 stock with FCI was registered at 160.11 lakh tonne while stock with state agencies was registered at 195.71 lakh tonne. Total stock in central pool was registered at 355.28 lakh tonne. If we include wheat lying in mandis and in transition, total quantity goes up to 392.02 lakh tonne.

South Indian Millers imported 1751.34 metric tonne of wheat from Australia during the week ended 24th May, 2015 at Average CIF \$298.91 per tonne at Tuticorin port. The highest and the lowest CIF value was recorded at \$301 and \$296 per tonne. More import is expected this week and volume may be higher.

Indian wheat exporters managed to export 2581.86 tonne wheat during the week ended 24th May, 2015. The export volume has come down from last week as prices of milling wheat in domestic market firmed up. Average FOB quote for exported quantity is \$278.52 per tonne. The highest and the lowest quotes were registered at \$339.65 and \$24.96 per tonne. Due to higher price gap Indian exporters are unable to ship more quantity.

Total wheat procurement was registered at 265.78 lakh tonne as on 25.05.2015 against 261.39 lakh tonne till date last year. Punjab has contributed 98.72 lakh tonne so far, followed by Haryana 67.55 lakh tonne. M.P. contribution stands at around 71.94 lakh tonne. Rajasthan has procured only 11.68 lakh tonne. Overall procurement is higher by 1.68 percent this year.

Agriculture statistics Division, DES has released Third Adv estimates of Production of foodgrains for 2014-15 on 13.05.2015. It has revised wheat production estimate down by 4.9 MMT to 90.78 MMT. In second Adv Est. production was estimated at 95.76 MMT. The drastic decrease in third Adv Est. is mainly attributed to inclement weather conditions in March and April. India has produced 95.85 million tonne wheat in 2013-14.

International Market Update:

Russia proposed new restriction on wheat export only 10 days after formally ending a previous levy. The aim of this restriction is to protect livestock farmers from rising feed costs. The tax may apply from July 1, the start of the 2015-16 marketing season, if it's approved by the Cabinet. It would be at least 1 ruble a metric ton and may be higher if contract prices rise above 11,000 rubles (\$220) a ton.

The USDA has estimated its initial global wheat ending stock for 2015-16 at 203.32 million tonne, up by 2.35 million tonne estimated for 2014-15 crop. It is higher than pre trade estimate of 194.2 million tonne.

Global wheat production for 2015-16 has been projected at 718.93 million tonne. However it is lower than the estimate of 726.45 million tonne estimated for 2014-15. If the forecast materializes, it would be the second highest record of global wheat production.

Domestic market Outlook: Wheat cash market is likely to trade steady to slightly weak.
