

Wheat Domestic Fundamentals:

Local millers and DFM (Delhi Flour mill) are active in western markets of U.P and purchasing wheat at Rs 1540/Rs1550 per qtl. on delivered basis. Local miller are buying wheat at Rs 1450 to Rs 1460 per qtl. Major stake holders are taking position in forward contacts and it hints that price of wheat may move north ward from current level.

Rake loading from Kota, Baran, Bundi region of Rajasthan for Bangalore and Kerala is continued at Rs Rs 1750/1775 per qtl. on delivered basis. Luster loss wheat for the same destination is being loaded at Rs 1680/1690 per qtl.

As on 16.5.2015 stock with FCI was registered at 160.11 lakh tonne while stock with state agencies was registered at 195.71 lakh tonne. Total stock in central pool was registered at 355.28 lakh tonne. If we include wheat lying in mandis and in transition, total quantity goes up to 392.02 lakh tonne.

South Indian Millers imported 1751.34 metric tonne of wheat from Australia during the week ended 24th May, 2015 at Average CIF \$298.91 per tonne at Tuticorin port. The highest and the lowest CIF value was recorded at \$301 and \$296 per tonne. More import is expected this week and volume may be higher.

Indian wheat exporters managed to export 2581.86 tonne wheat during the week ended 24th May, 2015. The export volume has come down from last week as prices of milling wheat in domestic market firmed up. Average FOB quote for exported quantity is \$278.52 per tonne. The highest and the lowest quotes were registered at \$339.65 and \$24.96 per tonne.

Total wheat procurement was registered at 265.78 lakh tonne as on 25.05.2015 against 261.39 lakh tonne till date last year. Punjab has contributed 98.72 lakh tonne so far, followed by Haryana 67.55 lakh tonne. M.P. contribution stands at around 71.94 lakh tonne. Rajasthan has procured only 11.68 lakh tonne. Overall procurement is higher by 1.68 percent this year

Agriculture statistics Division, DES has released Third Adv estimates of Production of foodgrains for 2014-15 on 13.05 2015. It has revised wheat production estimate down by 4.9 MMT to 90.78 MMT. In second Adv Est. production was estimated at 95.76 MMT. The drastic decrease in third Adv. Est is mainly attributed to inclement weather conditions in March and April. India has produced 95.85 million tonne wheat in 2013-14.

International Market Update:

Global wheat production in 2015/16 was forecast at 715 million, up from a previous projection of 705 million but below last season's 721 million. The IGC raised its forecast for wheat crops in China (127 million from 118 million), Russia (55 million from 52 million) and Ukraine (21 million from 20 million). The revisions were partially offset by lower forecasts for India (91 million from 94 million) and the United States (58.2 million from 59 million)-IGC

A drier forecast for southern winter wheat areas reduced some concerns about crop damage from recent heavy rains. The quality of some HRW wheat in central Texas and southern Oklahoma would fall below export grade. Demand for U.S. wheat was light as less expensive supplies were available from several rival exporters in Europe and the Black Sea region. Russia approved a new wheat export tax from July 1, which could threaten profits on advance contracts for the new crop if the ruble weakens.

Domestic market Outlook: Wheat cash market is likely to trade steady to slightly firm.
