

**Wheat Domestic Fundamentals:**

**Wheat cash market trades steady to slightly weak as supply side remains ample** in cash market. Besides, govt has ample stock to take care of any increase in demand from millers/bulk buyers. Govt may start releasing wheat from next month. However, premium grade would continue to trade higher as there is a short supply of this grade in the open market.

**Market sources say that half out of 5 lakh tonne contracted (in between \$255 to \$275 per Tonne)** so far has already landed in India and the rest 2.5 lakh tonne is schedule to reach India In Next month. Market has witnessed two new developments this year. Firstly, wheat import is taking place in vessels and south Indian millers are in process of buying wheat From Russia and France.

**India has exported 3624.07 tonne wheat in the third week of June** till 21th. at an ave FOB price of \$273.88 per tonne. During the same period wheat import was registered at 5745.03 tonne at an Ave CIF of \$295.85 per tonne. Wheat has been imported from Australia and is likely to continue.

**Total wheat procurement was registered at 274.66 lakh tonne** as on 19.06.2015 against 269.31 lakh tonne till date last year. Punjab has contributed 99.52 lakh tonne so far, followed by Haryana 67.94 lakh tonne. M.P. contribution stands at around 72.61 lakh tonne. Rajasthan has procured only 12.93 lakh tonne. Overall procurement is up by 1.99 percent this year.

**Agriculture statistics Division, DES has released Third Adv estimates** of Production of foodgrains for 2014-15 on 13.05 2015. It has revised wheat production estimate down by 4.9 MMT to 90.78 MMT. In second Adv Est. production was estimated at 95.76 MMT. The drastic decrease in third Adv . Est is mainly attributed to inclement weather conditions in March and April. India has produced 95.85 million tonne wheat in 2013-14.

**International Market Update:**

**IGC has revised global wheat production estimate down by 4 million tonne** to 711 MMT for 2015-16. The main reason for downward revision is mainly attributed to lower production in India (from 91 to 89 MMT now), Australia (from 27 to 25.5 MMT) and EU (from 150 to 148.5 MMT). However, it has revised Ukraine wheat production estimate up from 21 to 22 MMT.

**Wheat production forecast in Australia remains unchanged at 23.6 million tonne** in 2015-16 despite drought like condition and developing EL Nino pattern.

**Russian wheat exporters offer wheat to Iraq at \$231.00 a tonne c&f free out** in the tender for hard wheat. The tender closed on Sunday and offers must remain valid up to June 18. Russian wheat exporters was also offered at \$233.00 and \$236.50 a tonne c&f free out. One offer for U.S. wheat was made at \$285.42 a tonne c&f free out, the lowest offer for Australian origin was \$267.50 c&f free out and the lowest from Canada was \$266.00 a tonne c&f free out.

**Domestic market Outlook:** Wheat cash market is likely to trade steady to slightly weak.
