

Wheat Domestic Fundamentals:

Wheat market is likely to trade firm due to restricted arrivals and festive demand.

Wheat stock in central pool was registered at 386.80 lakh tonne on 1st ,July,2015. It is 2.81 percent lower than the stock available in July ,2014. The main reason for lower stock is mainly attributed to lower procurement this year(around 276 lakh tonne). It is lower by 4.14 percent in comparison to June,2015 stock..

Market participants say that domestic market for premium grade wheat may move up while average quality wheat may trade steady to slightly down. Govt may increase supply. Wheat release through central pool stock, expected from this month may restrict market to some extent.

India has exported 15794.28 tonne tonne wheat in the first week of July till 5th. at an average FOB price of \$301.25 per tonne(FAQ quality). During the same period wheat import was registered at 9550 tonne at an Average CIF of \$285.78 per tonne. Wheat has been imported from Australia and is likely to continue as deals have already been struck.

Total wheat procurement was registered at 276.19 lakh tonne as on 25.06.2015 against 270.68 lakh tonne till date last year. Punjab has contributed 99.52 lakh tonne so far, followed by Haryana 67.55 lakh tonne. M.P. contribution stands at around 72.61 lakh tonne. Rajasthan has procured only 12.95 lakh tonne. Overall procurement is up by 0.46 percent this year

Agriculture statistics Division, DES has released Third Adv estimates of Production of foodgrains for 2014-15 on 13.05 2015. It has revised wheat production estimate down by 4.9 MMT to 90.78 MMT. In second Adv Est. production was estimated at 95.76 MMT. The drastic decrease in third Adv. Est is mainly attributed to inclement weather conditions in March and April. India has produced 95.85 million tonne wheat in 2013-14.

International Market Update:

IGC has revised global wheat production estimate down by 4 million tonne to 711 MMT for 2015-16. The main reason for downward revision is mainly attributed to lower production in India(from 91 to 89 MMT now), Australia(from 27 to 25.5 MMT) and EU(from 150 to 148.5 MMT. However, it has revised Ukraine wheat production estimate up from 21 to 22 MMT.

Egypt's main state wheat buyer, the General Authority for Supply Commodities (GASC), bought 180,000 tonnes of Russian and Ukrainian wheat on Wednesday for shipment Aug. 11-20.

Wheat production forecast in Australia remains unchanged at 23.6 million tonne in 2015-16 despite drought like condition and developing El Niño pattern. Ukrainian weather forecasters said on Friday they had revised up their forecast for Ukraine's 2015 wheat crop to 24.5 million tonnes from 23.5 million tonnes.

Domestic market Outlook: Wheat cash market is likely to trade range bound to slightly weak..
