

Wheat Domestic Fundamentals:

No major trading activities were seen in cash wheat market. It continued to trade steady to slightly firm on improved demand from local millers, slower release from private stockists. Rake loading for south Indian market is being done on Rs1750/1760 per tonne. Some deals for south Indian market in forward months (August/sept) have been done on Rs1780 to 1800 per qtl.

India has exported 1888.59 tonne wheat in the third week of July till 19th. at an ave FOB price of \$266.33 per tonne. During the same period wheat import was registered at 35115 tonne at an Ave CIF of \$263.85 per tonne. Wheat has been imported from Australia at Tuticorin port and is likely to continue as deals have already been struck.

Wheat stock in central pool was registered at 379.71 lakh tonne on 16th ,July, 2015. The offtake from central pool stock is lower in the first fortnight of July. However, firming of cash market and short supply of premium and milling grade wheat may encourage millers towards govt.'s stock.

Total wheat procurement was registered at 280.88 lakh tonne as on 14.07.2015 as against 271.66 lakh tonne till date last year. Punjab has contributed 103.44 lakh tonne so far, followed by Haryana 67.78 lakh tonne. M.P. contribution stands at around 73.09 lakh tonne. Rajasthan has procured only 13.0 lakh tonne. Overall procurement is up by 3.39 percent this year.

Agriculture statistics Division, DES has released Third Adv estimates of Production of foodgrains for 2014-15 on 13.05 2015. It has revised wheat production estimate down by 4.9 MMT to 90.78 MMT. In second Adv Est. production was estimated at 95.76 MMT. The drastic decrease in third Adv. Est is mainly attributed to inclement weather conditions in March and April. India has produced 95.85 million tonne wheat in 2013-14.

International Market Update:

IGC has revised global wheat production estimate down by 4 million tonne to 711 MMT for 2015-16. The main reason for downward revision is mainly attributed to lower production in India (from 91 to 89 MMT now), Australia (from 27 to 25.5 MMT) and EU (from 150 to 148.5 MMT). However, it has revised Ukraine wheat production estimate up from 21 to 22 MMT.

As per latest USDA update Spring wheat headed was 96 percent in the week of July 19, higher than previous week and the average of previous five years, 70 percent spring wheat was rated good to excellent. Winter wheat harvesting is over by 75 percent till last week.

Russian wheat export prices fell last week as harvesting gathered pace despite concerns over quality. Harvesting in Russia, North Africa and the Middle East had been delayed in late June by rains in its main exporting regions but was now picking up again. Black Sea forward prices for Russian new-crop wheat with 12.5 percent protein content were at \$197 per tonne on a free-on-board (FOB) basis at the end of last week, down by \$4 in one week. More dip is expected.

Algeria buys 3 lakh tonnes of durum wheat from Mexico and France in a tender for a nominal 50,000 tonnes this week ending 26th ,July, 2015. The purchase comprised about 200,000 tonnes from Mexico and 100,000 tonnes from France bought at approximately \$420 a tonne c&f.

Domestic market Outlook: Wheat cash market is likely stay steady to slightly firm..
