

**Wheat Domestic Fundamentals:**

**Wheat Cash market trades firm taking clue from recovered futures.** Despite lower area coverage (around 56.50% so far) any spike in cash wheat market is unlikely. However, post monsoon rains in the growing region are badly needed. Fear of lower area coverage this year is gaining ground and delayed sowing may affect normal yield. Sowing is yet to commence in growing state like Bihar. In other states except Gujarat sowing is unsatisfactory. Farmers in Bihar may shift to maize crop as it needs less water. Overall area coverage under wheat was registered at 18.65 lakh ha against 42.88 lakh ha last year till date.

**Wheat export during week ended 15 Nov-2015 was registered at 396.88 tonne** at an ave FoB price of \$312.23 per tonne. The highest price realized for Durum variety (\$458.94 per tonne. Export volume decrease by 23.94 % from last week. There is no hope for higher export volume due to disparity. Indian wheat is \$40 per tonne higher than other competitor's quotes. There was no import last week. Higher import duty (25%) remains restrictive for any fresh deal..

**India increases MSP of wheat by 5.2 percent from Rs 1450 to Rs 1525** for MY 2016-17. Earlier CACP had recommended to hike wheat MSP By Rs 75 per qtl. Govt buys wheat and rice every year to maintain buffer stock and for distribution for various welfare schemes.

**No fresh deal for import has been reported after the imposition of 25 percent** duty on wheat. Higher import duty has made import costly and import parity is almost over now. Notably, govt. had increased import duty from 10 percent to 25 percent in mid Sept to check the current flow of import. At current duty wheat costing at Cochin port from Australia, Russia and France may be around \$332.35, 297.49 and \$286.77 respectively per T. against this Indian wheat FoB is \$256 per T at Kandla Port.

**Agricultural Statistics Division, Directorate of Economics & Statistics (DES)** has released First Adv. Estimate for kharif crop for 2015-16 on 16th Sept, 2015. Production target for wheat in Rabi has been set at 94.75 lakh tonne. In fourth adv. estimate it has revised wheat production estimate for 2014-15 to 90.78 lakh tonne. Notably, India has produced 95.85 million tonne wheat in 2013-14.

**International Market Update:**

**Russian Wheat Exporters have won tow tenders of Egypt last week.** Demand for Russian wheat has increased due to weak rouble. Wheat prices in local market remained almost flat and may stay steady despite higher demand. Black Sea prices for Russian wheat with 12.5 percent protein content were flat at \$198 per tonne on a free-on-board (FOB) basis. Domestic prices for third-class wheat added 75 roubles to 10,750 roubles (\$163) per tonne in the European part of Russia, on an ex-works basis.

**Rough weather in Ukraine may impact wheat export in 2016-17 and it may decrease to 3.5 MMT.** This year (2015-16) Ukraine may export 16.5 MMT wheat. Ukraine's eastern, central and southern regions are facing dry weather and farmers left 11 percent area out of normal unsowed. Production estimate has been cut by 8 percent to 17.5 percent.

**Australia's wheat crop may face quality problems as the country's eastern belt** are forecast to receive heavy rains this week, may damage the crop which is ready for harvest. Dry weather in September and above average temperatures this month have already curbed yields of high-protein prime hard wheat.

**IGC has revised wheat production estimate by 7 million tonne to 727 MMT** on the basis of improved production prospects in Russian Ukraine, Australia and EU. It might be a final production estimate for the year. Previously IGC had increased production estimate from 710 to 720 MMT.

**Domestic market Outlook:** Wheat cash market is likely trade steady to slightly firm
