

**Wheat Domestic Fundamentals:**

**Wheat cash markets stayed steady amid sluggish trading activities after Diwali.** Futures declined due to nearby month settlement. Cash market is expected to trade steady to slightly firm in the short to medium term taking clue from lower area coverage so far. Wheat in cash market is being traded at Rs 1600 to Rs 1700 per qtl., depending upon source and quality of the grain. There is a fear in the market that delayed sowing may impact normal yield and reduce final size of the crop.

**Wheat has been sown only in 18.65 lakh ha so far, almost lower by 65 % from previous year.** It would be very difficult to cover normal area and late sowing may reduce yield of wheat crop considerably -it is feared now. Rainfall for the country as a whole has been 35 per cent below normal rainfall during October 1 to November 11. Coming after a 14 per cent deficient monsoon season (June-September), the possibility of a poor rabi crop, after lower kharif production, seems clear in the sight.

**Wheat export during week ended 15 Nov-2015 was registered at 396.88 tonne at an ave FoB price of \$312.23 per tonne.** The highest price realized for Durum variety (\$458.94 per tonne. Export volume decrease by 23.94 % from last week. There is no hope for higher export volume due to disparity. Indian wheat is \$40 per tonne higher than other competitor's quotes. There was no import last week. Higher import duty (25%) remains restrictive for any fresh deal..

**India increases MSP of wheat by 5.2 percent from Rs 1450 to Rs 1525 for MY 2016-17.** Earlier CACP had recommended to hike wheat MSP By Rs 75 per qtl.Govt buys wheat and rice every year to maintain buffer stock and for distribution for various welfare schemes.

**No fresh deal for import has been reported after the imposition of 25 percent duty on wheat.** Higher import duty has made import costly and import parity is almost over now. Notably, govt. had increased import duty from 10 percent to 25 percent in mid Sept to check the current flow of import.

**Agricultural Statistics Division, Directorate of Economics & Statistics (DES)** has released First Adv. Estimate for kharif crop for 2015-16 on 16th Sept,2015. Production target for wheat in Rabi has been set at 94.75 lakh tonne. In fourth adv. estimate it has revised wheat production estimate for 2014-15 to 90.78 lakh tonne. Notably, India has produced 95.85 million tonne wheat in 2013-14.

**International Market Update:**

**IGC has revised world wheat production forecast down by 1 MMT from 727 to 726MMT in end Oct ,2015.** Global trade figure too has been revised up by 1 MMT from 149 MMT to 150 MMT. Consumption has been pegged 1 MMT lower to 718 MMT. World carry over stock has been decreased by 2 MMT to 209 MMT..Overall outlook for global wheat market remains bearish in the short to medium term.

**Rough weather in Ukraine may impact wheat export in 2016-17 and it may decrease to 3.5 MMT.** This year(2015-16) Ukraine may export 16.5 MMT wheat. Ukraine,s eastern, central and southern regions are facing dry weather and farmers left 11 percent area out of normal unsowed. Production estimate has been cut by 8 percent to 17.5 percent.

**Grain prices had another mixed month in October, with Rice rising strongly,** Maize remaining flat and Wheat falling moderately while wheat responded to ample global supplies by falling by a further 3.1%, to US\$218/MT, bringing total losses for the year to 21.6%. Going forward, Wheat and Maize prices face significant headwinds from the record size of world grain stocks, coupled with strong harvests in the leading producers, which will weigh down on prices.
