

Wheat Domestic Fundamentals:

Wheat cash markets continued to trade up by 0.31% to Rs 1748.63 per qtl. in comparison to 2nd week of December-2015 on all India average basis during the week under review. All India average price of FAQ quality was registered at Rs 1743.19 per qtl previous week. Firmness in premium grades like Tukra, Sharbati, Banshi and Lok-1 may continue due to short supply of these varieties in the open market. Stockists are well aware of the fact and they would release restricted quantity intentionally to fetch maximum benefit in the lean season.

Yellow rust has been spotted on wheat crop in some parts of Punjab and it may spread rapidly as condition for its spread is very conducive now. As per latest update by Punjab Agricultural University (PAU), yellow rust disease has been spotted in some wheat fields in Anandpur Sahib and Nangal in Ropar district which are sub-mountainous areas of Punjab. The affected crop is HD 2967. PAU has suggested farmers to be careful and use pesticide advised by agri scientists. Farmers need to be vigilant in Gurdaspur and Pathankot in Punjab, Yamunanagar in Haryana and Kathua in Jammu and Kashmir.

Wheat area coverage was registered at 259.37 lakh ha against 279 lakh ha last year till 23 Dec-2015. Overall area coverage has decreased by 7.23 %. Lower soil moisture could not allow farmers to cover normal acreage. Uttar Pradesh, Gujarat, Rajasthan and MP lags behind considerably in wheat coverage area so far. Late sowing, moisture stress and higher temperature may affect yield of wheat considerably this year.

Other bullish factors that have changed bearish inner tone are delayed sowing, lower area coverage and increasing fear of lower yield from late shown crop in Madhya Pradesh, Uttar Pradesh, Maharashtra and Rajasthan. MSP for the new crop (Rs 1525 per qtl) too would not allow market to decrease much from current level until new crop hits the market.

Agricultural Statistics Division, Directorate of Economics & Statistics (DES) has released First Adv. Estimate for kharif crop for 2015-16 on 16th Sept, 2015. Production target for wheat in Rabi has been set at 94.75 lakh tonne. In fourth adv. estimate it has revised wheat production estimate for 2014-15 to 90.78 lakh tonne. Notably, India has produced 95.85 million tonne wheat in 2013-14.

International Market Update:

IGC wheat production estimate remained unchanged this month too at 726 MMT. However, trade estimate has been revised up by 1 MMT to 151 MMT.

B,desb has issued an international tender to import 50,000 tonnes of milling wheat. The deadline for this offer is 10th of January-2016.Bid winners have to deliver wheat within 40 days of the signing of the contract. The tender called for wheat with at least 12.5 percent protein and a minimum test weight of 76 kilos per hectoliter. Around 1.25 lakh tonne wheat has been rejected due to quality reasons in last four weeks. Wheat imported from Brazil was rejected ealier. French wheat too was found below quality norm in recent weeks.

Algeria has brought around 8 lakh tonne wheat from global market last week, higher by 2 lakh tonne from its average monthly buying. Ethiopia too is trying to buy 70,000 tonne wheat this week. Jordan are looking for 100,000 MT of hard wheat and Syria for 200,000 MT of soft milling wheat. Meanwhile Japan are tendering for their regular 123,275 MT consignment of what this week is only US and Canadian wheat for Jan/Mar shipment.

Domestic market Outlook: *Wheat cash market is likely trade steady to slightly firm.*
