

### Wheat Domestic Fundamentals:

**No major change was featured in cash wheat market.** Cash market stayed steady to slightly weak on improved area coverage and lower offtake by local millers taking clue from weak futures. Govt. too is monitoring cash market closely and is keen to increase flow from central pool stock in coming weeks. New crop has started pouring in in Gujarat and Madhya Pradesh and quality of crop is said to be good. Market may trade weak in weeks ahead.

**Export and import continue in small quantity for various destinations. India exported 325.4 tonnes of wheat during week ended 25th January-2016.** Average FoB quote realized last week was \$351.15 per tonne. As prices are ruling lower in global market export opportunity for Indian wheat exporters seems bleak.

**All India average price for wheat increased marginally by 0.03 % from previous week** from Rs 1763.29 to Rs 1763.87 per qtl. during the week ended 23rd January-2016. Prices ruled 0.4 % higher from 3<sup>rd</sup> week of January, 2015. Slight decrease is expected due to improved sowing status in Uttar Pradesh and decreasing temperature in other producing regions with light shower of rains.

**As on January 1, the FCI's wheat stock was registered at 240 lakh tonnes,** up by 74% as against the 138 lakh tonnes required as per the buffer stocking norms on the same date. Higher availability in open market would restrict firm trend in wheat. Overall availability would be ample to take care of lean season demand.

**Wheat area coverage was registered at 291.97 lakh ha as on 22<sup>nd</sup> ,Jan,2016,** lower by 4.46 % from last year's coverage. India had covered 305.6 lakh ha area on 22<sup>nd</sup> January, 2015. As planting season is almost over now ,so this figure may be final for this year now..

**Supply is bound to increase in the remaining months of the current MY** as FCI is planning to offload some of its excess stock of wheat in next two and a half months till March-2016. Wheat would be sold in open market and restrict firmness.. The Food Corporation of India (FCI) has so far sold close to 41 lakh tonnes of wheat in the current year. Total sale in current fiscal year is expected to reach at 65 lakh tonne and average price may be realised around Rs 1605 per qtl. for the year. Last year, FCI had sold wheat at an average price of Rs 1602 per qtl.

**Agriwatch has revised wheat production estimate down by 3.62 MMT to 85.32 MMT** for 2016-17 MY starting from April-2016. Crop size may be revised down further if weather turns unfavourable in March –April once again like last year. Carryout for 2016-17 would decrease from 13.99 to 5.81 MMT, the lowest in a decade.

**Agricultural Statistics Division, Directorate of Economics & Statistics (DES)** has released First Adv. Estimate for kharif crop for 2015-16 on 16th Sept, 2015. Production target for wheat in Rabi has been set at 94.75 lakh tonne. In fourth adv. estimate it has revised wheat production estimate for 2014-15 to 90.78 lakh tonne. Notably, India has produced 95.85 million tonne wheat in 2013-14.

### International Market Update:

**As per USDA, U.S wheat exports at 2,57,700 MT (for the period 8th Jan- 14th Jan, 2016) were down 53 percent from the previous week and 31 percent from the prior 4-week average.** The primary destinations were Japan (118,000 MT), Guatemala (31,700 MT), Mexico (28,900 MT), South Korea (23,900 MT), and the Dominican Republic (22,900 MT).

**IGC wheat production estimate remained unchanged this month too at 726 MMT.** However, trade estimate has been revised up by 1 MMT to 151 MMT.

**Domestic market Outlook:** Wheat cash market is likely trade steady to slightly weak.
