

Wheat Domestic Fundamentals:

All India average wholesale wheat price increased considerably by 1.44 % from Rs 1811.44 to Rs1837.57 per qtl. during the week ended 29th January-2016. Prices ruled 5.75 % higher from 4th week of January, 2015. Slight decrease is expected due to improved sowing status in Uttar Pradesh and decreasing temperature in other producing regions with likely light shower of rains expected next week in North India.

Export and import continue in small quantity for various destinations. India exported 325.4 tonnes of wheat during week ended 25 th January-2016..Average FoB quote realized last week was \$351.15 per tonne. As prices are ruling lower in global market export opportunity for Indian wheat exporters seems bleak. Indian millers imported.4950 tonne wheat from Australia at an ave CiF of \$253.67 per tonne last week. Current lower price in global market and decreasing crude oil may encourage South Indian millers to import wheat despite 25% applicable import duty in India.

Indian wheat growing States have covered 292.52 lakh ha area till 28th Jan-2016.It is almost 4.4 % lower (305.94 lakh ha) in comparison to area covered in the corresponding time last year. States like Uttar Pradesh, Gujarat and Madhya Pradesh are running behind by 6.04, 21.60 and 8.25 % at progressive wheat area coverage front. Sowing is almost over now. So any major recovery at coverage front is unlikely. However, overall acreage may decrease from306 lakh ha. to 293 lakh ha due to late sowing and moisture stress in Nov-Dec-2015.

As on January 1, the FCI's wheat stock was registered at 240 lakh tonnes,up by74% as against the 138 lakh tonnes required as per the buffer stocking norms on the same date. Higher availability in open market would restrict firm trend in wheat. Overall availability would be ample to take care of lean season demand.

Agriwatch has revised wheat production estimate down by 3.62 MMT to 85.32 MMT for 2016-17 MY starting from April-2016.Crop size may be revised down further if weather turns unfavourable in March –April once again like last year. Carryout for 2016-17 would decrease from13.99 to 5.81 MMT, the lowest in a decade.

Agricultural Statistics Division, Directorate of Economics & Statistics (DES) has released First Adv. Estimate for kharif crop for 2015-16 on 16th Sept, 2015. Production target for wheat in Rabi has been set at 94.75 lakh tonne. In fourth adv. estimate it has revised wheat production estimate for 2014-15 to 90.78 lakh tonne. Notably, India has produced 95.85 million tonne wheat in 2013-14.

International Market Update:

IGC revised wheat production estimate up by 5MMT to731 MMT this month. Trade estimate too has been revised up by 1 MMT to 152 MMT. However, consumption estimate has been revised down by 1MMT to 719 MMT in the month of Jan 2016.Carryout stock has been revised up by5MMT down from 208to 213MMT.

As per USDA, U.S wheat exports at 2,57,700 MT (for the period 8th Jan- 14th Jan, 2016) were down 53 percent from the previous week and 31 percent from the prior 4-week average. The primary destinations were Japan (118,000 MT), Guatemala (31,700 MT), Mexico (28,900 MT).

Domestic market Outlook: Wheat cash market is likely trade steady to slightly weak.
