

Wheat Domestic Fundamentals:

Wheat cash market traded weak despite firm inner tone in the cash market. Expected selling through auction in July from central pool stock has restricted uptrend to some extent. However, it may be considered as corrective phase. Overall sentiment remains firm. Fresh buying interest might be seen from mid July as festive demand for wheat products would start from end July.

India exported 1057.02 T wheat during week ending 19th June-2016. Average FoB price was registered at \$384.37 per tonne. The highest and lowest quote was registered at \$633.33.04 & \$170.85 per T. India had exported 875 T wheat previous week. Export volume would remain negligible as parity is not in favor of India.

All India average wheat price increased by 0.09 % from Rs1777.39 to Rs1779.13 per qtl. during the week ended 15th June-2016. Arrival continues to decrease and private buyers remain active above Rs 1730-Rs1735 per qtl. All India average price is higher by 5.84 % in comparison to price registered in June, 2015. In mid June, 2015 average price was registered at 1680.91 per qtl. Overall trend in cash market is expected to remain firm

Unchanged duty structure would ensure better price for farmers who have retained stock and expectation of higher area coverage in Rabi season amid hope for good rainfall this year. Govt. may start wheat auction from July-2016 having reserve price of Rs 1640 per qtl. If prices continue to increase govt may review duty structure at the end of the year. Offtake from central pool is expected to increase by this move.

First shipment from France is expected in July end, first in this financial year. In the second quarter total 8 lakh tonne wheat is expected to land at south Indian port including Kerala.

At current price Indian wheat FoB, if sourced from MP, Rajasthan for Kandla port, comes to \$ 275/276 per metric tonne. In INR term is Rs 18500 per tonne. At current price if Russian wheat is imported it may land at Indian port at \$245 per tonne with 10 % import duty. At 25 % it would be \$306.88 per T. If wheat is imported from France costing comes to \$ 297 At 25% duty, it comes to \$238.06 at 10 % duty. At 10 % duty Australian wheat costing at Indian port would be \$264.24 per Tonne. If govt. revises duty to 10 percent, parity would turn in favor of south Indian millers.

International Market Update

Australian Bureau of Agricultural and Resource Economics and Sciences (ABARES) has revised its wheat production estimate for 2016-17 up from 24.4 to 25.4 MMT. The new season will end on 1st July-2017. It would be the highest production after 2012-13. Higher wheat output from Australia will add pressure on global prices

IGC has revised global wheat production estimate **up from 717 to 722 MMT** in its May-2016 update. Global trade estimate has been revised up by 1 MMT to 154 MMT.

Russia will procure wheat for restocking programme in MY 2016-17, starting from July at \$161 per T (10,900 roubles) for third class wheat, almost same price set for last year. At the end of last week, domestic prices for third-class wheat were at 10,925 roubles a tonne in the European part of Russia on an ex-works basis.

Domestic market Outlook: Wheat cash market is likely to trade firm with unchanged import duty structure..
