

Wheat Domestic Fundamentals:

Overall Wheat cash markets traded steady on Saturday.

All India average wheat price recovers once again and increased by 1.62 percent to Rs 1801.05 per qtl. during the week ended 23rd July-2016..Wheat average price was ruling at Rs 1772.26 per qtl in the second week of July. Arrival continues to decrease and private buyers remain active above Rs 1700-Rs1725 per qtl..All India average price is higher by 7.71 % in comparison to price (Rs 1672.11 per qtl.) registered in the third week of July, 2015.

Wheat cash market traded mixed despite improved supply from central pool stock and weak demand from south Indian millers as import continues. Private trades too have started offloading stock taking clue from weak futures. However, any major dip from current level is unlikely. Cash market is expected to trade stable to firm due to seasonal factors like festive demand and decreased arrivals in major bench mark markets..

Wheat import continues from Ukraine in the second week of July. India imported 18495.575 tonne wheat from Ukraine landed at Tuticorin port during the week ended 17th July-2016.It has been imported at \$191.94per tonne on CiF basis. India had imported 11,000 tonne wheat in the first week of July from same origin at sam price. More vessels are expected from Ukraine/France and Australia in August and September this year. Over one million tonne import deal has been finalized so far.

Wheat export from India continues with limited quantity as parity is not in favor of India. India exported 648.51 tonne wheat during week ended 17th July-2016 at an average FoB of \$339.42 per tonne. India had exported 3466.31 tonne wheat at an average price of \$339.42 per tonne. As prices in global market are very attractive opportunity for Indian exporters remains limited. There is no hope for any smart recovery at export front.

Market sources say that two consignments from France are expected next month.As prices in domestic market rule higher, south Indian millers would continue to import.Over 1 million tonne import deals have already been struck so far.Beginning of import would decrease demand from south Indian millers and it will put pressure on wheat price in central and north India.

As per normal stock norms, India need 245 lakh tonne wheat as on 1st July as operational stock while 30 lakh tonne as strategic reserve.So, total requirements bring it to 275 lakh tonne. Against this total availability is around 326 lakh tonne,higher by 51 lakh tonne. So there is no panic at supply front and govt is able to release stock as per market needs as and when it requires.

Reserve price for bulk sale is Rs 1640 per qtl. and for dedicated movement sale reserve price will be calculated after adding handling and transportation charges from FCI depot to loading in Railway Rake. Weekly auction will begin from 4th July-2016 in MP region. Sale would be conducted(As is where is basis. Detailed tender form will be uploaded on every Monday on FCI website.For more information interested parties may log on to <http://fciweb.nic.in/>

International Market Update:

Black sea region wheat prices continue to reel under pressure due to incoming huge crop in Russia,Ukraine and weak global market. There is a glut like condition in Argentina,Canada,US and Australia.All exporting countries have enough marketing surplus from last year's crop while new crop started hitting the market in black sea region and US.Actually , buyers are in bargaining seat and they have options to source wheat from many sources.Russian wheat prices have decreased to \$165 per tonne and pressure may continue in coming weeks.

IGC has revised wheat production projection up by 7MMT from722 to729 MMT in 1st,July-2016 for crop year2016-17. According to IGC global wheat production for 2016-17may touch 729 MMT against 736 forecast for 2015-16. The difference is around 7 MMT from previous year.

Domestic market Outlook:Wheat cash market is likely to trade stable to firm.
