

Wheat Domestic Fundamentals:

All India average wheat price decreased slightly by 0.42 percent to Rs 1792.16 per qtl. during the week ended 30th July-2016..Wheat average price was ruling at Rs 1799.72 per qtl in the fourth week of July. Arrival continues to decrease and private buyers remain active above Rs 1700-Rs1715 per qtl. All India average price is higher by 7.82 % in comparison to price (Rs 1662.24 per qtl.) registered in the fourth week of July, 2015. Overall trend in cash market is expected to remain steady to slightly firm as demand for wheat products is likely to increase just ahead of festive season.

.Wheat import continues and a third consignment of 5000 thousand T landed on Tuticorin during week ended 24th ,July-2016. Wheat has been sourced from Ukraine at an average CiF of 191.94.This year total import registered at 34500 tonne in last three weeks from one country-Ukraine. Import is likely to continue as wheat price in Black sea region has decreased to \$160 per tonne.

Regular release from central pool stock through auction would ensure supply for millers and in open market. Wheat price in Black Sea Region has decreased to \$160 per tonne. If millers add freight and insurance cost (around \$25 per tonne) it brings total landed cost at \$190 per tonne at Tuticorin port. With 25 percent duty total costing for millers come to Rs 15200 per tonne at their premises in Kerala. When they source it from domestic markets, total cost comes to Rs19000 per tonne. So, import is likely to continue.

India exported 463.88 tonne wheat during week ended 24th,July,2016.It decreases by 28.46 % from previous week. Wheat has been exported at an average price of 354.94 per tonne. major chunk has been exported from Mundra port. major buyers were UAE,Malaysia and SriLanka.As there is no parity for exporters ,export volume would remain at negligible level in coming weeks too.

Unchanged import duty structure would force south Indian millers to source wheat from central and north India to some extent. However, weak global market due to ample availability in Black Sea Region, US, Australia, France, Canada and Argentina has encouraged south Indian millers to continue import despite 25% import duty.

Rake loading from Rajasthan to Bangalore is being reported at 2075 per qtl. As demand continues, prices in domestic market is likely to trade stable to slightly firm despite import and release from central pool stock through various channels.

International Market Update:

As per USDA, U.S wheat exports at 0.549 MMT (for the period 15th July- 21st July, 2016) were up 53 percent from the previous week and 25 percent from the prior 4-week average. The primary destinations were Japan (178,200 MT), Chile (92,200 MT), Brazil 59,900 MT), Taiwan (56,800 MT), Peru (49,500 MT), Thailand (27,000 MT), and Mexico (25,700 MT).

France is expecting low yields due to heavy rain and lack of sunshine in spring which may lead to decrease in French wheat exports especially to overseas milling-wheat markets. A panamax bulk vessel is expected to arrive at Dunkirk in the mid of August from Romania carrying a quantity of around 55000-60000 MT. France usually takes smaller quantity of Romanian wheat such as 17500 MT in 2014/15 season and it seldom imports large quantities in June-July marketing season.

Ukraine is offering wheat at \$160 per tonne for wheat having 12.5 percent protein content.However,French wheat export price increased by 4.5 % to \$ 186 per tonne.Crop condition has worsened in France and production may decrease by 17 percent to 34 MMT this year.Fear of lower crop size has lent support to French wheat export price.Besides,production in Ukraine and EU is likely to decrease by 8.34 and 2.19 percent to 25 and 156.5MMT respectively.

Domestic market Outlook:Wheat cash market is likely to trade stable to firm in the short term.
