

Wheat Domestic Fundamentals:

No major trading activities were featured in cash market. Players awaiting decision on import duty. Wheat cash market trades steady to slightly weak. If duty is revised down cash market is likely to move down as higher volume of import may affect wheat demand from south India and it would turn inner tone in bear's favor. So decision on duty remains crucial for wheat market price direction.

All India average wheat price continued its descending trend and decreased by 0.43 percent to Rs 1813.15 per qtl. during the week ended 3rd Sept-2016..Wheat average price was ruling at Rs 1668.14 per qtl in the first week of Sept-2015. All India average price is higher by 8.69 % in comparison to price (Rs 1813.15 per qtl.) registered in the first week of Sept, 2015. Overall trend in cash market is expected to remain steady to slightly weak as govt. may revise wheat import duty from 25% to 10 % in Sept.-2016.It would pressurize inner tone in the market.If duty is not revised, steady to firm sentiment may to continue.

India imported around 74,000 tonne wheat from Australia and Ukraine last week till 4th Sept-2016 at an average CiF of \$228.98 per tonne.Around 10,000 tonne has been imported from Ukraine at an average CiF of \$193.21 per tonne and it landed at Tuticorin port.Mostly Australian wheat has landed at Tuticorin port at an average CiF of \$244.58 per tonne and it landed at Tuticorin port.One consignment of 10,000 T Australian wheat landed at Cochin sea at an average CIF of \$ 249.15 per tonne.More vessels are expected in Sept. Players are waiting for revision in duty and no fresh deal has been reported this week.Total import in current marketing year has crossed 3.48 lakh tonne .

With a aim to curb hoarding by bulk buyers/consumers FCI has restricted upper limit of wheat quantity from 5000 T to 500 tonne only in a single e-auction under OMSS. There is a apprehension that hoarding by big players/consumers may influence wheat price in open market. Wheat price in major bench mark market has increased in the range of 15 to 18 percent from April-2016.It has started affecting prices for wheat products now.This year stock with Govt is lower due to lower crop and procurement size and it may touch eight years low by March-2017 end.

Wheat stock in central pool is almost 25.28% lower than stock registered in Aug-2015.As on 1st August-2016 wheat stock in central pool was registered at 268.79 lakh tonne.It was 301 .81 lakh tonne in July-2016.Major portion of wheat stock is available in north zone where 202 lakh tonne wheat was registered in stock.South zone has 54.18 lakh tonne wheat. North zone includes Haryana,Punjab and Rajasthan while south zone includes Gujarat,Maharashtra, M.P and Chhatisgarh.

International Market Update:

Russia deputy agriculture minister Jambulat Khaturov in his latest statement has said that country would abolish export duty on wheat by July 2018.Russia had imposed export duty on wheat in Feb-2015 to stabilize grain price in local market. Under current duty effective from 1st October 2015 exporters have to pay amounts to 50 % of the customs value minus 6500 rubles per metric tonne with a condition that it would not be less than 10 rubles per metric tonnes.

Global wheat market seems under bear's grip once again on the back of bumper harvest from Russia to USA.Favorable weather condition in growing region except France and higher coverage area,yield in USA have distorted inner tone in the global market.IGC too has increased global wheat production estimate up by 1 percent to 743 MMT from last year.It has driven cbot wheat futures to the lowest level since Sept-2016.

IGC has revised wheat production projection up by 8MMT from 735 MMT to 743 MMT on 25th, Aug-2016 for crop year 2016-17. According to IGC global wheat production for 2016-17 may touch 743 MMT against 736 forecast for 2015-16.

Outlook: Cash market is expected to trade steady in the near term
