

**Wheat Domestic Fundamentals:**

**India imported around 101804 tonne wheat** from Australia, Ukraine and France last week till 08th Oct-2016 at an average CIF of \$221.26 per tonne. Around 43000 tonne has been imported from Ukraine at an average CIF of \$190.58 per tonne, 40880 tonne of Australian wheat at an average CIF of \$247.38 per tonne, 17750 tonnes of French wheat at an average CIF of \$207.84 per tonne and a small quantity of 373 tonnes has arrived from Moldova at an average CIF of \$228.59 per tonne.

**According to latest update, export of wheat has increased compared to last week.** In the week (03-08 October) the exports were around 472 metric tonnes compared to 256.55 metric tonnes in the week (26 Sept to 02 Oct). The said quantity was exported at an average FOB of \$ 339.20 per tonne and the major destinations were UAE, Kuwait, Somalia and Bahrain. Total export till 08nd Oct-2016 since 4th April was registered around 23862 tonne. Export window remained restricted due to disparity.

**As per latest update FCI has sold around 24.6 lakh tonnes wheat under OMSS during April to September.** The bulk quantity has been purchased by private players under OMSS. The sales under OMSS rallied from June and are still continuing, wheat has been sold at Rs 1640 per quintal plus freight charges. Stock in central pool as on 1st September 2016, was 24.2 million tonnes. Given the average total consumption of around 17 million tonnes for the next seven months till March'17, stock in central pool might be around 7.3 million tonnes as on 1st April'17 which is equivalent to required norms.

**Traders have bought around 400000 lakh tonnes of Ukraine-origin wheat** after import duty was lowered from 25 percent to 10 percent. Most deals are made between \$192 and \$199 per tonne C&F for milling wheat with 11.5 percent protein. Indian buying of Ukraine-origin wheat has already pushed up prices as two weeks ago traders were paying \$192 per tonne.

**All India average monthly price for wheat decreased by 2.23 percent** from Rs 1786.21 (in August) to Rs 1746.43 per qtl in September-2016 due to increasing fear of higher import volume and continuous sale from OMSS through auction. Better crop prospects for next year have weakened inner tone in the market. Average price (September) is higher by 7.33 percent from the price (Rs 1673.9 per qtl.) registered in September-2015. However, festive demand would continue to lend support to cash market fundamental and restrict market from any major decline.

**Government has reduced import duty on wheat, Crude palm oil and refined vegetable oils** in order to curb food inflation. The import duty on wheat has been reduced from 25 percent to 10 percent. Traders were expecting a reduction in import duty to make imports cheaper and ease the pressure on domestic market. Private traders have already imported around 600000 tonnes in the current marketing year.

**India imports 150 KMT of Wheat from Ukraine** since the beginning of September and over July-August Ukraine exported about 240 KMT of wheat to India. As per USDA current release, wheat production in India at its lowest level since 2012-13 marketing year, over the past five seasons domestic wheat consumption in the country has increased by 10 MMT. Nevertheless, since the beginning of season 2016/17 India has increased wheat imports even with the import duty. This season Ukraine has already entered the list of key wheat suppliers to India.

**International Market Update:**

**Japan's Ministry of Agriculture has bought around 100140 tonnes of wheat from United States and Canada.** Out of the total quantity around 72225 tonnes was bought from United States with a minimum protein content of 14 percent and around 27915 tonnes was bought from Canada with a minimum protein content of 13.5 percent. The shipments from US are expected to arrive by 31st January 2017, whereas loading from Canada will take place between 21st November and 20th December 2016.

**GASC has purchased 480000 tonnes of Russian and Romanian wheat through tender** after abolishing its zero-tolerance policy towards ergot. Louis Dreyfus offered 60000 tonnes at FOB \$181.7/tonne, ADM offered three cargoes each of 60000 tonnes at an average FOB of \$180.33/tonne, Union offered 60000 tonnes at FOB \$177.7/tonne, Aston offered 60000 tonnes at FOB \$183.5/tonne, Alegrow offered 60000 tonnes at FOB \$179.5/tonne and Venus offered 60000 tonnes at FOB \$181.45/tonne

**Australia's wheat crop is expected to fall due to damages caused to the crop by recent rainfalls.** East coast of the country is expected to receive around 100 millimeters of rainfall, which will lead to wetter than average conditions until November. Furthermore east coast of the country produces high protein wheat which means crop loss in the region will limit the exports with the country. Earlier a forecast of 28.1 million tonnes was given for production which is likely to be revised in the near future.

**Outlook:** Cash market is expected to trade steady to weak in the near term
