

### Wheat Domestic Fundamentals:

**Weather remains favorable for wheat crop and prospects for good production has increased.** Almost 85 % sowing is over now. New crop condition in Gujarat and MP is satisfactory so far. Prices in cash market have decreased with increasing flow of imported wheat and better production prospects. Govt. may consider imposition of duty again if import volume continues to increase. Higher import volume would discourage private traders to buy wheat in the season and it would compel govt to procure higher quantity on MSP for ensuring farmers interest. Market expects 25 % duty on wheat export by Jan end .

**Wheat area coverage is up by 7.42 % to 278.62 lakh ha till Dec-23,2016.** It is up by 1.44 % from normal till date. Normal area under wheat is 304.05 lakh ha. Higher area coverage has been reported from the States of Madhya Pradesh (3.85 lakh ha), Maharashtra (1.89 lakh ha), Rajasthan (1.74 lakh ha), Bihar (0.44 lakh ha), Jharkhand (0.26 lakh ha), Haryana (0.14 lakh ha) and Uttarakhand (0.14 lakh ha). Less area coverage has been reported from the States of Gujarat (1.47 lakh ha), J&K (0.75 lakh ha), Himachal Pradesh (0.67 lakh ha), West Bengal (0.49 lakh ha), Karnataka (0.45 lakh ha), Punjab (0.33 lakh ha), Chhattisgarh (0.14 lakh ha), Assam (0.07 lakh ha) and Uttar Pradesh (0.02 lakh ha).

**Pressure continues on expectation of higher import volume. Wheat cash market continued** to trade weak after cheaper option for import. Govt.'s move to erase duty to 0 % from 15 % has impacted cash wheat market and it declined by 7 to 8 % in last two weeks. At Delhi wheat price declined from Rs 2150 to Rs 2050 per qtl. Import flow may continue as parity of Rs 1000 per T still prevails. At the time the waiver was announced, the landed cost of import worked out to be cheaper by Rs 200 a qtl. Lured by the import benefit, flour mills contracted for around 500,000 tonnes of shipment from Ukraine. As of now 2 MMT wheat has been imported and 1MMT more is expected in next 2 to 3 months. Import still remains attractive.

**India has bought around 200000 tonnes of wheat from black sea region** in the last week after Indian government scrapped import duty on wheat. Of the total quantity 150000 tonnes of wheat is from Ukraine and the remaining quantity is from Russia. Ukraine has already emerged as a key exporter of wheat to Indian as it has already exported around 900 thousand tonnes of wheat in the past five months.

**All India weekly average prices increased by 3.01 percent** to Rs. 2242.69 per quintal during the week ended 15th December 2016. Wheat average price was ruling at Rs 2177.08 per quintal during 01-08th December 2016. As compared to prices in the week 09-15th December 2015, the prices are firm by 28.71 percent. Prices are expected to remain range bound to slightly weak in coming days.

**At import front situation seems to be turning in favor of south Indian millers** after revision of import duty to Zero. Wheat from Ukraine is arrived at Chennai and Tuticorin port at \$195.23 per tonne and \$199.93 per tonne respectively. In October India imported 5.41 lakh tonne wheat at an average CiF of \$221.97 per tonne. Import is likely to continue as prices in domestic market rules higher. As import duty is slashed, import volume may exceed 2MMT in current MY. It would impact south Indian millers demand from central and north India. Off-take from central pool would decrease.

### International Market Update:

**Agriculture Ministry of Argentina expects higher than expected wheat** production this year due to increased investment in pesticides and fertilizers amid new government export policies. Rules regarding export curbs and other taxes have been eased. This led to massive increase in planted area this year. Argentina is expected to harvest 157 lakh tonne wheat this year against 113 lakh tonne last year. Previous estimate for this year was 149 lakh tonne. Wheat sowing has entered in last phase now.

**Importers in the Philippines purchased about 25,000 tonnes of Australian-origin feed** wheat. The buyers had asked for quotations for milling wheat but bought feed wheat grades. Price was around \$196 a tonne c&f for April 2017 arrival. Besides, Egypt brought 3.6 lakh tonne milling grade wheat from Russia, Romania and Argentina for mid Jan-2017 delivery. It has been brought at the average price of USD 198/ MT C&F. The price at the previous tender equaled USD 202.5/MT C&F. Due to the cheaper FOB offers available from Argentina, Russian traders had to lower their FOB prices in average by \$2. Also there was observed \$2.5 decrease in Russian freight rates.

**Russian wheat export in MY 2016-17 from 1st July to 14 Dec has increased by 1.9 percent** to 143.17 lakh tonne YoY basis. However, wheat exports from this country has been lower than expected in the 2016-17 marketing year as farmers have been slow to let go of their stocks on the domestic market due to low prices. However, this year's projected exports are 3.46 million mt higher than last year's first half. Higher export is mainly attributed to higher export volume in non-traditional countries like Algeria, Tunisia and others.

**Outlook:** Cash market is expected to trade steady to slightly weak in the near term
