

Wheat Domestic Fundamentals:

Wheat cash market continues to reel under pressure as inner tone turns bearish on the back of higher area coverage, favorable weather condition and import flow. Govt.'s strategy to augment supply in cash market to weighed on market fundamental. Steady to weak tone may prevail in domestic market.

Wheat area coverage is up by 7.71 % to 292.39 lakh ha till Dec-30th-2016. It is up by 2.12 % from from normal till date. Normal area under wheat is 304.05 lakh ha. Higher area coverage has been reported from the States of Madhya Pradesh (6.04 lakh ha), Rajasthan (2.21 lakh ha), Maharashtra (2.09 lakh ha), Jharkhand (0.30 lakh ha), Uttarakhand (0.14 lakh ha) and Haryana (0.11 lakh ha). Less area coverage has been reported from the States of Gujarat (1.74 lakh ha), J&K (0.75 lakh ha), Himachal Pradesh (0.72 lakh ha), Karnataka (0.49 lakh ha), Bihar (0.36 lakh ha), Uttar Pradesh (0.24 lakh ha), Punjab (0.14 lakh ha), West Bengal (0.13 lakh ha), Assam (0.08 lakh ha) and Chhattisgarh (0.06 lakh ha).

To ease supply side and check price in the open market, FCI has revised its grain stocks norms for third quarter beginning in the month of October and January while rules for July and April have remained unchanged. Under the revised norms FCI needs to maintain wheat stocks of 19.5 million tonne (MT) and 13.8 MT on October 1 and January 1, respectively. Now it needs to maintain 1MMT less wheat. As on December 1, FCI had a wheat stock of 16.49 MT, against the buffer stocks norm of 13.8 MT required to be maintained on January 1. This implies that the corporation would be left with virtually no excess wheat stocks starting next year as it requires around 2.5 MT of grain monthly for Public Distribution System.

Food corporation of India has been selling wheat at Rs 1640 per qtl. In ongoing MY, FCI has sold 3.6 MT of wheat under OMSS to bulk buyers so far. In MY 16, it had sold 7.1 MT of wheat through OMSS while in the 2014-15, it had sold more than 4.2 mt of grain to bulk purchasers.

India has bought around 200000 tonnes of wheat from black sea region in the last week after Indian government scrapped import duty on wheat. Of the total quantity 150000 tonnes of wheat is from Ukraine and the remaining quantity is from Russia. Ukraine has already emerged as a key exporter of wheat to Indian as it has already exported around 900 thousand tonnes of wheat in the past five months.

All India weekly average prices increased by 3.01 percent to Rs. 2242.69 per quintal during the week ended 15th December 2016. Wheat average price was ruling at Rs 2177.08 per quintal during 01-08th December 2016. As compared to prices in the week 09-15th December 2015, the prices are firm by 28.71 percent. Prices are expected to remain range bound to slightly weak in coming days.

At import front situation seems to be turning in favor of south Indian millers after revision of import duty to Zero. Wheat from Ukraine is arrived at Chennai and Tuticorin port at \$195.23 per tonne and \$199.93 per tonne respectively. In October India imported 5.41 lakh tonne wheat at an average CiF of \$221.97 per tonne. Import is likely to continue as prices in domestic market rules higher. As import duty is slashed, import volume may exceed 2MMT in current MY. It would impact south Indian millers demand from central and north India. Off-take from central pool would decrease.

International Market Update:

Ukraine exported 1382.7KMT wheat in the month of Nov-2016. It is almost same the quantity exported in Nov-2015. In the first 5 months of season-2016-17 wheat export from Ukraine increased by 7.7% YoY to 9618.3 KMT. India too emerged as a major buyer for Ukraine wheat. During this period India imported 10 % of total exported volume from Ukraine. Other major buyers were Thailand, Indonesia and South Korea .

Agriculture Ministry of Argentina expects higher than expected wheat production this year due to increased investment in pesticides and fertilizers amid new government export policies. Rules regarding export curbs and other taxes have been eased. This led to massive increase in panted area this year. Argentina is expected to harvest 157 lakh tonne wheat this year against 113 lakh tonne last year. Previous estimate for this year was 149 lakh tonne. Wheat sowing has entered in last phase now.

Importers in the Philippines purchased about 25,000 tonnes of Australian-origin feed wheat. The buyers had asked for quotations for milling wheat but bought feed wheat grades .Price was around \$196 a tonne c&f for April 2017 arrival. Besides, Egypt brought 3.6 lakh tonne milling grade wheat from Russia, Romania and Argentina for mid Jan-2017 delivery. It has been brought at the average price of USD 198/ MT C&F.

Russian wheat export in MY 2016-17 from 1st July to 14 Dec has increased by 1.9 percent to 143.17 lakh tonne YoY basis. However, wheat exports from this country has been lower than expected in the 2016-17 marketing year as farmers have been slow to let go of their stocks on the domestic market due to low prices. However, this year's projected exports are 3.46 million mt higher than last year's first half.

Outlook: Cash market is expected to trade steady to slightly weak in the near term
