

Wheat Domestic Fundamentals:

All India weekly average prices increased by 0.96 percent to Rs. 2016.64 per quintal during the week ended 15th January 2017. Wheat average price were ruling at Rs 1997.45 per quintal during 01-08th January 2017. As compared to prices in the week 09-15th January 2016, the prices are firm by 14.42 percent. Prices are expected to remain range bound to slightly firm in coming days.

As per latest update, area sown until 13 January'17 is 309.6 lakh hectares compared to 289.07 lakh hectares in the previous Rabi season. The area is higher by around 7 percent compared to last year for the same date. Among major states the area is down in Bihar, Chhattisgarh, Himachal Pradesh and Jammu & Kashmir, whereas Madhya Pradesh, Maharashtra, Punjab and Uttar Pradesh have seen an increase in area compared to last year for the same date. The normal area is 304.05 lakh hectares.

As per latest update, India is expected to receive around 1MMT of wheat in January'17. This will include delayed shipments from last year as well as shipments that were booked for this month only. This may lead to congestion at Indian ports. Around 700,000 tonnes is expected from Ukraine and the remaining from Australia for the month. Furthermore Indian crop has entered crucial stages and any further deals will depend on how the crop shapes up. As of now, not many new deals are being signed.

As per latest update, FCI has sold around 83000 tonnes of wheat in the first week of January. For the year 2016-17, FCI has sold around 37.3 lakh tonnes of wheat until last week of December. Of this total quantity around 32 lakh tonnes has been purchased by millers and the remaining quantity by state governments. Government has increased its release in OMSS but it is still lower compared to last year.

Wheat WPI has increased slightly from 232.9 in October to 245 in November-2016. Monthly wheat inflation has increased by 5.19 percent in November-16 compared to October -16. As compared to November-15 wheat WPI has increased by around 10.71 percent.

Pressure on cash wheat market may continue as recent rains in major growing belts and decreasing temperature are considered to be favorable for standing crop and its better growth. Crop is in developmental stage and farmers are happy with short spell of rains. One –two spell of rains in Jan end and Feb would help in attaining better yield. Import flows continue and domestic demand remains restricted. All these developments would not allow wheat market to get firmer.

To ease supply side and check price in the open market, FCI has revised its grain stocks norms for third quarter beginning in the month of October and January while rules for July and April have remained unchanged. Under the revised norms FCI needs to maintain wheat stocks of 19.5 million tonne (MT) and 12.8 MT on October 1 and January 1, respectively. Now it needs to maintain 1MMT less wheat. As on December 1, FCI had a wheat stock of 16.49 MT, against the buffer stocks norm of 13.8 MT required to be maintained on January 1. This implies that the corporation would be left with virtually no excess wheat stocks starting next year as it requires around 2.5 MT of grain monthly for Public Distribution System.

At import front situation seems to be turning in favor of south Indian millers after revision of import duty to Zero. Wheat from Ukraine is arrived at Chennai and Tuticorin port at \$195.23 per tonne and \$199.93 per tonne respectively. In October India imported 5.41 lakh tonne wheat at an average CiF of \$221.97 per tonne. Import is likely to continue as prices in domestic market rules higher. As import duty is slashed, import volume may exceed 2MMT in current MY. It would impact south Indian millers demand from central and north India. Off-take from central pool would decrease.

International Market Update:

GASC has purchased 235000 tonnes of Russian and Romanian wheat through tender. Of the total quantity purchased 175000 tonnes is from Russia and rest is from Romania. Grainbow offered 60000 tonnes at FOB \$187.5/tonne, Olam offered 60000 tonnes at FOB of \$187.95/tonne, Cerealcon offered 60000 tonnes of Romanian wheat at FOB \$189.65/tonne and Glencore offered 55000 tonnes at FOB \$188.34/tonne. The quantity is likely to be shipped between February 15th and 25th.

Turkey's state grain board has purchased 99000 tonnes of high-quality milling wheat in a tender with minimum 14% protein content. Anagro offered 54000 tonnes at \$232.39 cost and freight for Mersin port. Whereas Glencore offered two cargoes of 9000 tonnes each and Hakan Agro offered three cargoes of 9000 tonnes each. The quantity has to be shipped between January 20th and February 7th.

As per latest update, Tunisia's state grain agency purchased around 100000 tonnes of durum wheat in a tender. The lowest price offered was around \$273.96 cost and freight. The said quantity is likely to be shipped in February/April depending of the origin of wheat.

Outlook: Cash market is expected to trade steady to slightly firm in the near term.
