

**Wheat Domestic Fundamentals:**

**As per latest update, FCI has sold around 3.41 lakh tonnes of wheat in the first four weeks of January** and around 4.25 lakh tonnes in December. In the first three weeks around 2.63 Lakh tonnes of wheat was sold and the remaining 78000 tonnes was sold in the fourth week. For the year 2016-17, FCI has sold around 40.76 lakh tonnes of wheat until last week of January. Of this total quantity around 34.43 lakh tonnes has been purchased by private trade and the remaining quantity by state governments.

**All India weekly average prices increased by 3.60 percent to Rs. 2134.53 per quintal** during the week ended 31st January 2017. Wheat average price were ruling at Rs 2060.35 per quintal during 16-23rd January 2017. As compared to prices in the week 24-31st January 2016, the prices are firm by 23.94 percent. Prices are expected to remain range bound to slightly weak in coming days.

**According to latest update, area sown until 27 January'17 is 315.55 lakh hectares** compared to 292.52 lakh hectares in the previous Rabi season. Among various states the area is down in Jammu & Kashmir and Karnataka, whereas Punjab, Haryana and Uttar Pradesh have seen an increase in area compared to last year for the same date. The normal area is 304.05 lakh hectares. Area is expected to be higher this year as government has increased MSP of wheat which has motivated farmers to sow more area.

**Wheat WPI has increased slightly from 245 in November to 251.7 in December-2016.** Monthly wheat inflation has increased by 2.73 percent in December-16 compared to November-16. As compared to December-15 wheat WPI has increased by around 12.82 percent.

**As per latest update, India is expected to receive around 1MMT of wheat in January'17.** This will include delayed shipments from last year as well as shipments that were booked for this month only. This may lead to congestion at Indian ports. Around 700,000 tonnes is expected from Ukraine and the remaining from Australia for the month. Furthermore Indian crop has entered crucial stages and any further deals will depend on how the crop shapes up. As of now, not many new deals are being signed.

**To ease supply side and check price in the open market, FCI has revised** its grain stocks norms for third quarter beginning in the month of October and January while rules for July and April have remained unchanged. Under the revised norms FCI needs to maintain wheat stocks of 19.5 million tonne (MT) and 12.8 MT on October 1 and January 1, respectively. Now it needs to maintain 1MMT less wheat. As on December 1, FCI had a wheat stock of 16.49 MT, against the buffer stocks norm of 13.8 MT required to be maintained on January 1. This implies that the corporation would be left with virtually no excess wheat stocks starting next year as it requires around 2.5 MT of grain monthly for Public Distribution System.

**At import front situation seems to be turning in favor of south Indian millers** after revision of import duty to Zero. Wheat from Ukraine is arrived at Chennai and Tuticorin port at \$195.23 per tonne and \$199.93 per tonne respectively. In October India imported 5.41 lakh tonne wheat at an average CiF of \$221.97 per tonne. Import is likely to continue as prices in domestic market rules higher. As import duty is slashed, import volume may exceed 2MMT in current MY. It would impact south Indian millers demand from central and north India. Off-take from central pool would decrease.

**International Market Update:**

**Russian wheat prices increased continuously for the third week in January** and the quote for 12.5 percent Russian wheat increased by \$1 per tonne to \$186 per tonne compared to last week. The main reason for this is increased demand of Russian wheat in the international market. Russia has exported a total of 17.2 million tonnes of wheat between July 1 and Jan 25.

**GASC has purchased 410000 tonnes of Russian wheat** through tender after abolishing its zero-tolerance policy towards ergot. Louis Dreyfus offered 60000 tonnes at FOB \$192.74/tonne, Aston offered 60000 tonnes at FOB of \$194/tonne, Grainbow offered 60000 tonnes at FOB \$192.25/tonne, ECTP offered 60000 tonnes at FOB \$192.7/tonne, Alegrow offered 60000 tonnes at FOB \$192.75/tonne and Glencore offered two cargoes of 55000 tonnes each at FOB \$192/tonne.

**As per latest update, Japan's ministry of agriculture bought 110687 MMT of food quality wheat** from United States and Canada. Around 60610 MMT has been bought from United States and 50077 MMT has been bought from Canada with minimum protein content of 13.5 percent. The quantity from U.S. will be loaded between February 21-March 20 and the quantity from Canada will be loaded between March 21-April 20.

**According to latest update by International Grains Council, the production forecast has been increased by 3 million tons for crop year 2016-17.** The production may touch 752 million tons against a forecast of 736 million tons for 2015-16. The difference is around 16 million tons. Higher projection for wheat may pressurize global wheat at current level and any major recovery from current level is unlikely.

**Outlook:** Cash market is expected to trade steady to slightly weak in the near term.
