The said quantity was purchased at \$220-221 per tonne including cost and freight. India has imposed 10 percent import duty but even after that Australian wheat is cheaper for mills in south India.

Government has imposed 10 percent import duty on 28th March'17. However this was not able to cease flow of imports and millers are still importing wheat. As per market sources wheat stock in central pool as on 16th March'17 is 8.57 MMT, which is lowest in last ten years. Due to lower production in the last two years government has to increase its release in OMSS to keep the prices under control which led to lower stocks. Last marketing season government was able to procure only 22.9 MMT. As good crop is expected this year, Government has kept a target of 33 MMT in current marketing season.

According to latest update, area sown until 03 February'17 is 317.81 lakh hectares compared to 297.25 lakh hectares in the previous Rabi season. Among various states the area is down in Jammu & Kashmir and Karnataka, whereas Punjab, Haryana and Uttar Pradesh have seen an increase in area compared to last year for the same date. The normal area is 304.05 lakh hectares. Area is expected to be higher this year as government has increased MSP of wheat which has motivated farmers to sow more area.
