As per market sources wheat stock in central pool as on 16th March'17 is 8.57 MMT, which is lowest in last ten years. Due to lower production in the last two years government has to increase its release in OMSS to keep the prices under control which led to lower stocks. The normal area is 304.05 lakh hectares. Area is expected to be higher this year as government has increased MSP of wheat which has motivated farmers to sow more area.
