

**Wheat Domestic Fundamentals:**

**FCI will sell a total quantity 511700 tonnes of wheat in different states through e-auction on 13th July at a reserve price of Rs 1790 per quintal.** Of the total quantity in OMSS, highest quantity of 281000 tonnes is offered in Maharashtra followed by 50000 tonnes in West Bengal, 30000 tonnes in Odhisa, 29500 tonnes in Gujarat, 20000 tonnes in Rajasthan, 16000 tonnes in Delhi, 19500 tonnes in Kerala, 13000 tonnes in Tamil Nadu, 15000 tonnes in Assam, 5500 tonnes in Chhattisgarh, 5000 tonnes in J&K, 4700 tonnes in Uttarakhand, 4500 tonnes in Uttar Pradesh, 1000 tonnes in Jharkhand, 1000 tonnes in Pondicherry, 1500 tonnes in Himachal Pradesh, 1000 tonnes in Andhra Pradesh and 2500 tonnes in Goa.

**All India weekly average prices increased by 6.66 percent to Rs. 1786.77 per quintal** during the week ended 08th July 2017. Wheat average price were ruling at Rs 1675.21 per quintal during 24-30 June 2017. As compared to prices in the week 01st -08th July 2016, the prices are weak by 0.99 percent. Prices are expected to remain steady to firm in coming days.

**Government agencies have started procurement since 15th March'17. For Rabi marketing season 2017-18 government has procured 308 lakh tonnes.** Of the total quantity procured, around 67.24 lakh tonnes has been procured from Madhya Pradesh, 74.11 lakh tonnes from Haryana, 117.05 lakh tonnes from Punjab, 36.99 lakh tonnes from Uttar Pradesh, 12.45 lakh tonnes from Rajasthan, 0.02 lakh tonnes from Uttarakhand, 0.08 lakh tonnes from Chandigarh and 0.06 lakh tonnes from Gujarat. In Rabi marketing season 2017-18 government has set procurement target of 330 LMT. Last year government was able to procure only 229 lakh tonnes due to lower production.

**Sellers are offering Ukrainian origin wheat with protein content of 11.5% for August delivery at Tuticorin port for CFR \$209 per tonne. Buyers are likely to buy at CFR \$206 per tonne.** However due to good production, unsold stock at port silos and lower domestic prices buyers are not finding these prices attractive.

**India has extended exemption for crop fumigation by six month to 30th December 2017.** Prior to this, India has stated that after 30th June 2017 the country would accept cargoes that are fumigated with methyl bromide at the port of origin. However this extension of six months comes with a cost as cargoes need to be fumigated at port of destination in India at five times the normal cost of fumigation. This will add up to \$ 11.18 per tonne for container shipment. Methyl bromide has been banned or restricted in many countries due to its unfriendly atmospheric properties.

**As per third advance estimate for 2016-17 wheat production is likely to be around 97.4 MMT** which is higher compared to second advance estimate of 96.6 MMT issued in February 2017. Grain quality is better this year compared to last year and there are no issues relating to higher moisture and pest. This year overall acreage is higher by around 4.5% over normal acreage of 304.05 lakh hectares.

**According to latest update, area sown until 03 February'17 is 317.81 lakh hectares** compared to 297.25 lakh hectares in the previous Rabi season. Among various states the area is down in Jammu & Kashmir and Karnataka, whereas Punjab, Haryana and Uttar Pradesh have seen an increase in area compared to last year for the same date. The normal area is 304.05 lakh hectares. Area is expected to be higher this year as government has increased MSP of wheat which has motivated farmers to sow more area.

**International Market Update:**

**As per latest update, china has sold 3566 tonnes of wheat for average price of 2539 yuan (\$373.08) per tonne** at an auction of state reserves on Tuesday. The quantity sold represents around 2.79 percent of 127786 tonnes of wheat available at auction.

**GASC has purchased 115000 tonnes of wheat through tender.** Friends offered 55000 tonnes of Romanian wheat at FoB \$203.70 per tonne and Alegrow offered 60000 tonnes of Russian wheat at FoB \$240.75 per tonne.

**France is expected to harvest 36.2 million tonnes of wheat in 2017 compared to 28.47 million tonnes in 2016.** Wheat crop condition in France improved slightly as showers provided relief after a dry June. Ministry has estimated an average yield of 7.04 tonnes per hectare compared to 5.37 tonnes per hectare in 2016 whereas the area has been pegged at 5.15 million hectares.

**Wheat area in Ukraine came to around 6.28 million hectares.** Farmers have started harvesting wheat and as of now they have harvested around 615000 tonnes of wheat. The ministry has given no official forecast regarding production of wheat harvest but analysts believe it to be around 23-25 million tonnes.

**Outlook:** Cash market is expected to trade steady to firm in the near term.
