

Wheat Domestic Fundamentals:

As per IMD, India has received cumulative rainfall of 103% of the benchmark LPA. The northwest and central regions have received rainfall with 116% and 113% of the LPA respectively whereas the southern peninsula and east/north-east region have received rainfall with 91% and 90% of the LPA respectively. IMD has further forecasted that rainfall is likely to decrease between July 27 and August 02. The only regions suffering with deficient rains include Kerala, Parts of Karnataka and Tamil Nadu.

India is likely to import between 3-4 million tonnes of wheat in 2017-18 despite good production this year due to cheaper availability in international market. As per market sources, India has imported around 1.4 lakh tonnes of Australian wheat in the month of June at Tuticorin port and around 2.8-3.0 lakh tonnes of wheat has already been contracted with Ukrainian suppliers. The major importers are south Indian mills as they find imported wheat cheaper compared to transporting it from North and central India.

As per latest update, India has exported 0.72 lakh tonnes of wheat in April-May 2017 compared to 1.09 lakh tonnes in April-May 2016. Whereas on the import front India has imported 2.18 lakh tonnes in April-May 2017 compared to 0.00 lakh tonnes in April-May 2016. Import is likely to be around 2-3 million tonnes in 2017-18 however, export will be lower due to higher domestic quotes compared to other major exporting countries.

All India weekly average prices increased by 1.45 percent to Rs. 1812.64 per quintal during the week ended 15th July 2017. Wheat average price were ruling at Rs 1786.77 per quintal during 01-08 July 2017. As compared to prices in the week 09th -15th July 2016, the prices are firm by 2.23 percent. Prices are expected to remain steady to firm in coming days.

As per third advance estimate for 2016-17 wheat production is likely to be around 97.4 MMT which is higher compared to second advance estimate of 96.6 MMT issued in February 2017. Grain quality is better this year compared to last year and there are no issues relating to higher moisture and pest. This year overall acreage is higher by around 4.5% over normal acreage of 304.05 lakh hectares.

According to latest update, area sown until 03 February'17 is 317.81 lakh hectares compared to 297.25 lakh hectares in the previous Rabi season. Among various states the area is down in Jammu & Kashmir and Karnataka, whereas Punjab, Haryana and Uttar Pradesh have seen an increase in area compared to last year for the same date. The normal area is 304.05 lakh hectares. Area is expected to be higher this year as government has increased MSP of wheat which has motivated farmers to sow more area.

International Market Update:

As per latest update, china has sold 202977 tonnes of wheat for average price of 1986 yuan (\$293.56) per tonne at an auction of state reserves. The quantity sold represents around 14.26 percent of 1422665 tonnes of wheat available at auction.

As per Agritel, France is likely to harvest 36.6 million tonnes of soft wheat in 2017 up by 33 percent compared to last year. Yield is expected to be around 7.12 tonnes per hectare. Furthermore protein levels are likely to be more than 12 percent due to dry and hot weather in the end of growth cycle. As on 17th July farmers have harvested 66% of this year's soft wheat crop.

GASC has purchased 300000 tonnes of wheat through tender. Of the total quantity 120000 tonnes is of Russian origin, 120000 tonnes is of Romanian origin and 60000 tonnes is of French origin. Aston offered 60000 tonnes of Russian wheat at FoB \$203.45 per tonne, ADM offered 60000 tonnes of Romanian wheat at FoB \$204.60 per tonne, Ameropa offered 60000 tonnes of Romanian wheat at FoB \$206.08 per tonne, Solaris offered 60000 tonnes of Russian wheat at FoB \$204.94 per tonne, and Casillo offered 60000 tonnes of French wheat at FoB \$203 per tonne.

As on 14th July Russia has harvested 10.7 million tonnes of wheat compared to 14.2 million tonnes a year ago for the same date. Around 2.3 million hectares of area has been harvested with an average yield of 4.62 tonnes per hectare compared to 3.2 million hectares with an average yield of 4.42 tonnes per hectare a year ago for same date.

As per latest update, Japan's ministry of agriculture bought 93765 MMT of food quality wheat from United States and Australia. Around 62900 MMT with minimum protein content of 14 percent has been bought from United States to be loaded between August 21 - September 20 and 30865 MMT of standard white has been bought from west Australia to be loaded between September 1- September 30.

Outlook: Cash market is expected to trade steady to firm in the near term.
