

**Wheat Domestic Fundamentals:**

**As per latest update, traders in India have signed deals in the last few weeks to buy around 300000 tonnes of Ukrainian wheat with a protein content of 11.5% for September-October delivery.** Importers have paid \$210-217 per tonne cost and freight. More deals like these can be signed in the near future but as of now things have slowed down. India is likely to import 2-3 million tonnes of wheat in 2017-18.

**All India weekly average prices decreased by 6.53 percent to Rs. 1772.3 per quintal during the week ended 31st July 2017.** Wheat average price were ruling at Rs 1896.14 per quintal during 16-23 July 2017. As compared to prices in the week 24-31 July 2016, the prices are weak by 1.20 percent. Prices are expected to remain steady to firm in coming days.

**FCI will sell a total quantity 1099150 tonnes of wheat in different states through e-auction on 10th August at a reserve price of Rs 1790 per quintal.** Of the total quantity in OMSS, highest quantity of 404700 tonnes is offered in Punjab followed by 214000 tonnes in Maharashtra, 173000 tonnes in Haryana, 60000 tonnes in West Bengal, 50000 tonnes in Odhisa, 48950 tonnes in M.P, 23000 tonnes in Gujarat, 21950 tonnes in Karnataka, 20000 tonnes in Rajasthan, 20000 tonnes in Tamil Nadu, 16000 tonnes in Delhi, 14750 tonnes in Kerala, 5000 tonnes in Uttar Pradesh, 7000 tonnes in Chandigarh, 5700 tonnes in J&k, 4600 tonnes in Uttarakhand, 1000 tonnes in Goa, 1500 tonnes in Himachal Pradesh, 1000 tonnes in Jharkhand, 3000 tonnes in Pondicherry, 2000 tonnes in each Bihar and Andhra Pradesh.

**Government has offered 1104050 tonnes of wheat in OMSS for the month of June out of which only 115000 tonnes was sold.** In the month of July only 32850 tonnes was sold against a total quantity of 3561562 tonnes offered in the first three tenders. Off take is low this year due to ample availability in the market.

**As per third advance estimate for 2016-17 wheat production is likely to be around 97.4 MMT** which is higher compared to second advance estimate of 96.6 MMT issued in February 2017. Grain quality is better this year compared to last year and there are no issues relating to higher moisture and pest. This year overall acreage is higher by around 4.5% over normal acreage of 304.05 lakh hectares.

**According to latest update, area sown until 03 February'17 is 317.81 lakh hectares** compared to 297.25 lakh hectares in the previous Rabi season. Among various states the area is down in Jammu & Kashmir and Karnataka, whereas Punjab, Haryana and Uttar Pradesh have seen an increase in area compared to last year for the same date. The normal area is 304.05 lakh hectares. Area is expected to be higher this year as government has increased MSP of wheat which has motivated farmers to sow more area.

**International Market Update:**

**Jordan has bought 50000 tonnes of hard milling wheat in a tender closed on Wednesday at \$221.50 per tonne cost and freight to be shipped in first half of December.** Recently Jordan has faced difficulty in purchasing wheat through tenders due to ambiguity about country's new quality control and payment.

**As per latest update, china has sold 20316 tonnes of imported wheat for average price of 2423 yuan (\$363.21) per tonne at an auction of state reserves.** The quantity sold represents around 1.64 percent of 1235724 tonnes of wheat available at auction.

**As per latest update by USDA on 08th August'17 around 32% of spring wheat** is in good or excellent condition compared to 68% a year ago. Further around 94% of winter wheat has been harvested compared to 88% a week ago.

**France has harvested around 91 percent of its soft wheat crop until 31st July** compared to 85 percent a week ago. France AgriMer has estimated that median date for soft wheat harvest is still 11 days earlier than the average of past five years.

**As per latest update, Japan's ministry of agriculture bought 132925 MMT of food quality wheat from United States, Australia and Canada.** Around 50080 MMT with minimum protein content of 14 percent has been bought from United States to be loaded between September 21 - October 20, 49665 MMT has been bought from Canada with minimum protein content of 13.5 percent to be loaded between September 21 - October 20 and 33180 MMT of standard white has been bought from west Australia to be loaded between October 1-October 31.

**Outlook:** Cash market is expected to trade steady to firm in the near term.
