

Wheat Domestic Fundamentals:

FCI will sell a total quantity 823150 tonnes of wheat in different states through e-auction on 02nd November at a reserve price of Rs 1790 per quintal. Of the total quantity in OMSS, highest quantity of 343500 tonnes in Maharashtra followed by 110600 tonnes in M.P, 90100 tonnes in Haryana, 60000 tonnes in West Bengal, 50000 tonnes in Odhisa, 29150 tonnes in Punjab, 23800 tonnes in Tamil Nadu, 20800 tonnes in Karnataka, 20000 tonnes in Rajasthan, 16000 tonnes in Delhi, 10000 tonnes in Kerala, 9500 tonnes in Andhra Pradesh, 7500 tonnes in Jammu & Kashmir, 6500 tonnes in Gujarat, 5500 tonnes in Uttarakhand, 5200 tonnes in Chandigarh, 5000 tonnes in Uttar Pradesh, 2500 tonnes in Pondicherry, 2000 tonnes in Bihar, 1500 tonnes in Himachal Pradesh, 1500 tonnes in Chhattisgarh, 1500 tonnes in Goa and 1000 tonnes in Jharkhand.

All India weekly average prices increased by 0.18 percent to Rs. 1940.83 per quintal during the week ended 31st October 2017. Wheat average price were ruling at Rs 1937.30 per quintal during 16-23 October 2017. As compared to prices in the week 24-31 October 2016, the prices are firm by 5.29 percent. Prices are expected to remain steady to firm in coming days.

As per trade sources, Import quotes for wheat from different origins to Tuticorin port witnessed firm tone in last week. As of now Tuticorin port price for APW is Rs 1950 per quintal, ASW is Rs 1890-1900 per quintal and Ukrainian wheat at Rs 1790-1800 per quintal. India is likely to import 3-4 million tonnes of wheat in 2017-18. Government may increase import duty from 10% in order to curb imports and provide support to domestic prices.

As per market sources, wheat acreage in Rajasthan is likely to fall slightly this year as a small portion of unirrigated area might be shifted to chickpeas. Rajasthan government has kept a target of 32 lakh hectares for 2017-18 Rabi season. Wheat prices are getting support from increase in MSP and an expected increase in import duty.

India has received 78 mm of rainfall since the beginning of the month until 29th October. Uttar Pradesh, Madhya Pradesh and Gujarat received deficient rainfall whereas Rajasthan, Haryana and Punjab received no rainfall during the same time period. Soil moisture is good in major wheat producing states as of now except Rajasthan. Rajasthan government has kept a target of 32 lakh hectares for 2017-18 Rabi season compared to actual sown area of 33.49 lakh hectares last year. Wheat prices are getting support from increase in MSP and an expected increase in import duty.

India is likely to increase import duty on wheat from 10 percent to 20 percent. India has scrapped import duty on wheat in December 2016 and reinstated 10 percent duty in March 2017 due to cheaper imports compared to domestic wheat prices. Millers in South India have put their import contracts on hold due to speculation regarding import duty.

As per Afghanistan Chamber of Commerce and Industries (ACCI), India will send around 130000 tonnes of wheat to Afghanistan via Chabahar port of Iran. This move is likely to improve trade relations of India and Afghanistan.

As per fourth advance estimate for 2016-17 wheat production is likely to be around 98.8 MMT which is higher compared to third advance estimate of 97.4 MMT. The total food grain production has been pegged at 275.68 MMT compared to 251.57 MMT in final estimate of 2015-16.

According to latest update, area sown until 03 February'17 is 317.81 lakh hectares compared to 297.25 lakh hectares in the previous Rabi season. Among various states the area is down in Jammu & Kashmir and Karnataka, whereas Punjab, Haryana and Uttar Pradesh have seen an increase in area compared to last year for the same date. The normal area is 304.05 lakh hectares. Area is expected to be higher this year as government has increased MSP of wheat which has motivated farmers to sow more area.

International Market Update:

China has reduced its minimum purchase price for 2018 by 2.5 percent compared to last year. This may lead farmers to shift from common wheat to more lucrative varieties with more gluten content. This move can also reduce china's dependency on imports as it uses imported wheat to improve gluten level in domestic crop.

Wheat harvesting in Australia picked up last week due to drier weather as it helped in drying crops and bringing down the moisture level. As of now APW1 and APH2 in Brisbane are being quoted at \$245 per tonne and \$256.5 per tonne respectively. Australia is expected to harvest around 20.15 MMT compared to 35.5 MMT last year.

The Saudi Arabia Grain Organization has purchased 484000 tonnes wheat through tender. The said quantity will arrive at three different ports. Around 306000 tonnes will arrive at Jeddah port, 123000 tonnes at Dammam and the remaining 55000 tonnes at Jizan port. Saudi Arabia abandoned plans of self sufficiency in 2008 as farming in desert reduced scarce water resources and became a major importer of hard and soft wheat.

Outlook: Cash market is expected to trade steady to firm in the near term.
