

Wheat Domestic Fundamentals:

As per latest update by DGCIS, India has exported around 6.54 thousand tonnes in January-18 compared to 21.71 thousand tonnes in January-17. Overall condition for Indian wheat export is not favorable and export volume would remain low in coming months as other countries are able to provide wheat at lower prices.

As per latest update by DGCIS, India has imported around 31.08 thousand tonnes in January-18 compared to 161.02 thousand tonnes in January-17. India is likely to import lower quantity in 2018-19 due to good production in past two years.

As per IMD a fresh western disturbance is expected to affect Punjab/Haryana between April 15 and 16. This western disturbance may bring more rain in the region. This may cause delay in harvesting. Furthermore it may also damage crop that has already been harvested. As of now recent rains have not caused any significant damage to wheat crop in Punjab and Haryana.

Government agencies have started procurement since 15th March'18. Until 12th April'18 government has procured around 22.79 lakh tonnes of wheat. Of the total quantity procured, around 0.46 lakh tonnes have been procured from Punjab, 9.93 lakh tonnes from Haryana, 1.98 lakh tonnes from Uttar Pradesh, 19.15 lakh tonnes have been procured from Madhya Pradesh, 1.27 lakh tonnes in Rajasthan, 0.01 lakh tonnes from Uttarakhand, 0.01 lakh tonnes from Chandigarh and 0.13 lakh tonnes from Gujarat. In Rabi marketing season 2018-19 government has set procurement target of 32 MMT.

FCI has offered a total of 42719512 tonnes of wheat through E-Auction since June until fifth tender in March. FCI was able to sell 1421800 tonnes in the tenders issued. Sales through E-Auction of wheat are at lower side this year due to high domestic production and imports.

All India weekly average prices increased by 8.25 percent to Rs. 1905.23 per quintal during the week ended 08th April 2018. Wheat average price were ruling at Rs 1759.97 per quintal during 24-31 March 2018. As compared to prices in the week 01-08 April 2017, the prices are weak by 2.69 percent. Prices are expected to remain steady to weak in coming days due to increasing arrival pressure.

As per latest update, until 08th April Traders and five government agencies have purchased a total of 3.77 lakh tonnes of wheat. Of the total quantity procured by government agencies around 0.47 lakh tonnes has been procured by food, civil supplies and consumer affairs department, 0.98 lakh tonnes by HAFED, 0.97 lakh tonnes by FCI and 1.34 lakh tonnes by Haryana warehousing corporation. Palwal district has recorded highest arrival in the state, where 1.84 lakh tonnes of wheat has been procured.

As per trade sources, import quotes for wheat from various origins to Tuticorin port, witnessed steady to weak tone in the week. Traders are not quoting prices for APW due to lower availability. As of now Tuticorin port price ASW at Rs 1970-1985 per quintal and Ukrainian wheat at Rs 1770-1785 per quintal. Ample availability in the market is keeping global wheat prices under pressure.

As per second advance estimate, India is likely to produce 97.11 MMT of wheat compared to 98.51 MMT in previous year. The total food grain production is expected at record 277.49 MMT compared to 275.11 MMT last year. This year overall acreage is lower by around 4.27% compared to last years' acreage of 317.88 lakh hectares.

International Market Update:

Egypt has set its local wheat price at 570-600 Egyptian Pounds (\$32-34) per ardeb. Farmers are not appreciating this price and have warned that they can shift to more profitable crop in the season. Egypt procured 3.6 MMT of wheat from local market in last season.

Russian milling wheat prices have become firm by \$2-3 per tonne compared to last week. Sliding ruble has strengthened price. Russia has produced around 85-86 MMT of wheat this year compared to 72 MMT last year. As of now Russian milling wheat with 12.5% protein content at Novorossiysk port is being quoted at FoB \$210.00-214.00/tonne whereas milling wheat whereas wheat with 12.5% protein content at Odessa is being quoted at FoB \$210.00-213.00/tonne.

Algeria state grains agency OAIC has bought around 330000 tonnes of milling wheat in a tender that closed on Tuesday. The price paid was around \$229.00 per tonne (Cost and Freight). The quantity to be shipped is due in June. The milling wheat can be sourced from various origins but most of it is likely to be purchased from France.

Outlook: Cash market is expected to trade steady to weak in the near term.
