

Wheat Domestic Fundamentals:

As per trade sources, import quotes for wheat from various origins to Tuticorin port, witnessed weak tone in the week. Traders are not quoting prices for APW due to lower availability. As of now Tuticorin port price ASW at Rs 1940-1960 per quintal and Ukrainian wheat at Rs 1765-1780 per quintal. Ample availability in the market is keeping global wheat prices under pressure.

All India weekly average prices increased by 1.85 percent to Rs. 1940.47 per quintal during the week ended 15th April 2018. Wheat average price were ruling at Rs 1905.23 per quintal during 01-08 April 2018. As compared to prices in the week 09-15 April 2017, the prices are weak by 1.27 percent. Prices are expected to remain steady to weak in coming days due to arrival pressure.

Rains in past days have affected crop in various states across India. As per director of Agriculture department Uttar Pradesh around 20-25% crop has been affected. In Haryana, no major loss has been reported as per state agriculture department. In Punjab around 2% of crop has been hit as per director of agriculture. Furthermore, officials in Punjab believe that bright sunshine after rain has limited damage to the crop. Rajasthan has already harvested around 70% of their wheat, however reports of severe damage has been received from Bharatpur and Dholpur districts. Recent aberration in weather may lead to discoloration of grain and quality issues.

As per latest update by DGCIS, India has exported around 6.54 thousand tonnes in January-18 compared to 21.71 thousand tonnes in January-17. Overall condition for Indian wheat export is not favorable and export volume would remain low in coming months as other countries are able to provide wheat at lower prices.

As per latest update by DGCIS, India has imported around 31.08 thousand tonnes in January-18 compared to 161.02 thousand tonnes in January-17. India is likely to import lower quantity in 2018-19 due to good production in past two years.

Egypt has set its local wheat price at 570-600 Egyptian Pounds (\$32-34) per ardeb. Farmers are not appreciating this price and have warned that they can shift to more profitable crop in the season. Egypt procured 3.6 MMT of wheat from local market in last season.
