

### Wheat Domestic Fundamentals:

**Some of the mandis remained closed or there was no arrival due to lorry strike.**

**FCI will offer a total quantity 2084650 tonnes of wheat in different states through e-auction on 26th July 2018 at a reserve price of Rs 1900 per quintal.** Of the total quantity in OMSS, highest quantity of 522000 tonnes in Maharashtra followed by 521350 tonnes in Punjab, 580200 tonnes in Haryana, 60000 tonnes in West Bengal, 56000 tonnes in Rajasthan, 55000 tonnes in Odhisa, 34000 tonnes in Kerala, 32900 tonnes in Chandigarh, 26500 tonnes in Tamil Nadu, 25500 tonnes in Gujarat, 25000 tonnes in Andhra Pradesh, 25000 tonnes in Madhya Pradesh, 23800 tonnes in Karnataka, 20000 tonnes in Delhi, 18900 tonnes in Chhattisgarh, 15000 tonnes in Uttar Pradesh, 13000 tonnes in Assam, 13000 tonnes in Uttarakhand, 7000 tonnes in J&K, 5000 tonnes in Bihar, 2000 tonnes in Himachal Pradesh, 2500 tonnes in Jharkhand and 1000 tonnes in Goa.

**As per trade sources, import quotes for wheat from various origins to Tuticorin port, witnessed firm tone in the week.** As of now Tuticorin port price for ASW is Rs 2245-2255 per quintal and Ukrainian wheat is Rs 2040-2050 per quintal. Wheat supplies are likely to tighten this year. Stock of imported wheat has declined in past months as no quantity has been imported since February 2018 from Australia or Ukraine.

**All India weekly average prices decreased by 0.66 percent to Rs. 1898.00 per quintal during the week ended 23rd July 2018.** Wheat average price were ruling at Rs 1910.64 per quintal during 09-15 July 2018. As compared to prices in the week 16-23 July 2017, the prices are weak by 0.02 percent. Prices are expected to remain firm in coming days due to increase in import duty and good domestic demand.

**As per trade sources, after increase in import duty to 30 percent imports have decreased substantially.** India has imported no wheat in the month of June-2018. Imports are expected to be low this year due to good domestic availability and increase in import duty. India has imported around 31000 tonnes in the month of February-2018. Production in exporting countries like Australia and Russia is likely to stay at lower side, which is likely to keep their export prices at higher side. Therefore, demand for wheat will be, to a large extent, dependent on domestically available wheat.

**As per trade source, India has exported around 2.17 thousand tonnes in the month of June** compared to 2.31 thousand tonnes in May. The quantity in June was exported at an average FOB of \$ 432.95 per tonne and the major destinations were Nepal, UAE, Malaysia, Kuwait and Singapore. Exports are likely to be at lower side as other countries are able to provide quality wheat at competitive prices.

**Wheat WPI has increased slightly from 141.7 in May-2018 to 143.1 in June-2018.** Monthly wheat inflation has increased by 0.99 percent in June -2018 compared to previous month. As compared to June-2017 wheat WPI has increased by around 5.14 percent. Wheat WPI is expected to stay steady to slightly firm in coming months.

**Government agencies have started procurement since 15th March'18. For RMS 2018-19, government has procured around 355.22 lakh tonnes of wheat.** Of the total quantity procured, around 126.91 lakh tonnes have been procured from Punjab, 87.39 lakh tonnes from Haryana, 50.88 lakh tonnes from Uttar Pradesh, 72.87 lakh tonnes have been procured from Madhya Pradesh, 15.31 in Rajasthan, 1.09 lakh tonnes from Uttarakhand, 0.14 lakh tonnes from Chandigarh, 0.37 lakh tonnes from Gujarat, 0.25 lakh tonnes from Bihar and 0.01 lakh tonnes from Himachal Pradesh. In Rabi marketing season 2018-19 government has set procurement target of 32 MMT. Government has abundant supplies this year, which will allow it to control any unexpected price rise.

### International Market Update:

**Wheat Quality Australia (WQA) has downgraded some of its varieties to feed quality.** Varieties such as meering, camm, mitre, annuello, mackellar, and H46 will only be received as feed. Furthermore, Australia is likely to produce 22 MMT of wheat in 2018-19 due to dry and hot weather and lower rainfall in east Australia. Australia's exports for 2018-19 are expected to be around 16 MMT. Furthermore, Australia is expected to face strong competition from Black sea region for market share.

**Russian milling wheat prices became firm** by \$9-10 per tonne at Novorossiysk and \$4-10 per tonne at Odessa compared to last week. Good demand and lower crop size in major producing countries compared to last year is providing support to prices. As per USDA, Russia is expected to produce 67.00 MMT in 2018 compared to 84.99 MMT in 2017. As of now Russian milling wheat with 12.5% protein content at Novorossiysk port is being quoted at FoB \$210.00-215.00/tonne whereas milling wheat whereas wheat with 12.5% protein content at Odessa is being quoted at FoB \$208.00-212.00/tonne.

**As per latest update, France is likely to harvest 35.00 MMT of wheat** compared to 36.6 MMT last year. Overall crop in EU is expected to be below 130 MMT due to hot and dry weather in northern/central parts of Europe.

**Outlook:** Cash market is expected to trade steady to firm in the near term.
