

### Wheat Domestic Fundamentals:

**India's import are expected to be 0.5 MMT or lower in MY 2018-19 due to good availability in domestic market and higher prices of wheat in Australia and Black sea region.** As of now quotes for imported wheat from Australia and Black sea region is coming around \$335-365 per tonnes after including freight and import duty @30%. Local expenses would add to import quotes. Therefore, there is no parity for imported wheat.

**Indian FoB quote is hovering around \$296.89 per tonne.** Against it Russia, Ukraine, France, US and Australia are offering wheat at \$218.13, \$219.50, Euro 213.19 \$224.44 and \$260.15 per tonne respectively. There is little hope for recovery at export front this year. However, India is expected to import around 0.5 million tonnes in MY 2018-19.

**As per trade sources imported wheat from various origins to Tuticorin port witnessed firm tone in the week.** As of now Tuticorin port price for ASW is Rs 2305-2315 per quintal and Ukrainian wheat is Rs 2090-2110 per quintal. Australian Premium Wheat (APW) is not available in the domestic market. Stock of imported wheat has declined in past months as no quantity has been imported since February 2018 from Australia or Black sea region.

**All India weekly average prices decreased by 1.44 percent to Rs. 2019.19 per quintal during the week ended 15th August 2018.** Wheat average price were ruling at Rs 2048.77 per quintal during 01-08 August 2018. As compared to prices in the week 09-15 August 2017, the prices are firm by 4.02 percent. Prices are expected to remain firm in coming days due to increase in import duty and good domestic demand.

**As per latest update, wheat stock in central pool as on 1st August'18 stood at 405.58 lakh tonnes down by 2.97% compared to last month.** This quantity is higher by around 34.93% compared to last year for the same month. Government has already applied import duty on wheat to curb imports and provide support to domestic prices. The stock position as on 01st August'18 is highest in last four years. Therefore, government has abundant supplies this year to tackle any unexpected rise in wheat prices by selling more quantity in open market.

**As per trade source, India has exported around 2.17 thousand tonnes in the month of June compared to 2.31 thousand tonnes in May.** The quantity in June was exported at an average FOB of \$ 432.95 per tonne. Exports are likely to be at lower side as other countries are able to provide quality wheat at competitive prices.

### Previous Updates:

**Government agencies have started procurement since 15th March'18. For RMS 2018-19, government has procured around 355.22 lakh tonnes of wheat.** Of the total quantity procured, around 126.91 lakh tonnes have been procured from Punjab, 87.39 lakh tonnes from Haryana, 50.88 lakh tonnes from Uttar Pradesh, 72.87 lakh tonnes have been procured from Madhya Pradesh, 15.31 in Rajasthan, 1.09 lakh tonnes from Uttarakhand, 0.14 lakh tonnes from Chandigarh, 0.37 lakh tonnes from Gujarat, 0.25 lakh tonnes from Bihar and 0.01 lakh tonnes from Himachal Pradesh. In Rabi marketing season 2018-19 government has set procurement target of 32 MMT. Government has abundant supplies this year, which will allow it to control any unexpected price rise.

### International Market Update:

**As on 21st August, Russia has harvested around 54.2 MMT of wheat** from 16 million hectares of land compared to 59.5 MMT last year for the same date. Harvesting in Ukraine is complete and Ukraine has harvested 25 MMT of wheat compared to 26.6 MMT last year. In July-18, Russia and Ukraine has exported 3.9 MMT has exported 0.43 MMT of wheat respectively. Prices are ruling at higher side in Black Sea due to lower production and good export demand.

**Russian milling wheat prices became weak by \$2-3 per tonne** at Novorossiysk and \$2-3 per tonne at Odessa compared to last week. Prices remained weak as Eid holiday kept demand at lower side. As per USDA, Russia is expected to produce 68.00 MMT in 2018 compared to 84.99 MMT in 2017. As of now Russian milling wheat with 12.5% protein content at Novorossiysk port is being quoted at FoB \$225.00-230.00/tonne whereas milling wheat whereas wheat with 12.5% protein content at Odessa is being quoted at FoB \$225.00-230.00/tonne.

**As on 13th August, US have harvested 94 percent of winter wheat and 35 percent of spring wheat.** Harvest in Ukraine is nearly complete and farmers have harvested around 24.9 MMT of wheat in 2018-19. In Saskatchewan, around 24 percent and 3 percent of winter wheat and durum wheat has been harvested respectively. As per Buenos Aires grain exchange wheat planted area in Argentina has increased by 7 percent compared to 6.1 million acres last year. Global wheat crop is expected to be lower this year, which is likely to provide support to global wheat prices.

**Wheat crops have suffered in Northern Europe, Australia, Canada and Russia due to unfavourable weather conditions.** USDA expects world production is likely to be around 729.63 MMT in 2018-19 compared to 758 MMT last year. Strategie Grains have lowered forecast for soft wheat in Europe from 130 MMT to 127.7 MMT. As per USDA, Russia's wheat crop is expected to be around 68 MMT down from 85 MMT last year. USDA did not change forecast for Australia but private forecasters believe the crop to be around 20 MMT. Lower availability will support global wheat prices.

**Outlook:** Cash market is expected to trade steady to firm in the near term.
