

Wheat Domestic Fundamentals:

Arrivals in most of the mandis are either nil or low due to arrival of soybean and paddy.

Wheat WPI has increased from 149.8 in September-2018 to 151.1 in October-2018. Monthly wheat inflation has increased by 0.87 percent in October -2018 compared to previous month. As compared to October -2017 wheat WPI has increased by around 9.49 percent. Wheat WPI is expected to stay steady to slightly firm in coming months.

As per latest update, wheat stock in central pool as on 1st November'18 stood at 331.35 lakh tonnes down by 6.99% compared to last month. This quantity is higher by around 38.93% compared to last year for the same month. Government has already applied import duty on wheat to curb imports and provide support to domestic prices. The stock position as on 01st November'18 is highest in last four years. Therefore, government has abundant supplies this year to tackle any unexpected rise in wheat prices by selling more quantity in open market.

Wheat future November contract closed at Rs 2048 per quintal after increasing by Rs 18 per quintal. Stock of imported wheat from Black sea region and Australia is negligible. Fresh import is also highly unlikely as wheat in domestic market is cheaper compared to wheat imported from Russia, Ukraine or Australia. Furthermore, ample stock is available with government as well as private trade to meet domestic demand. Prices are likely to stay firm in near future.

India mainly imports from Australia and Russia. Wheat prices remained steady to slightly weak in both the countries during last week. As of now, Russian wheat with 12.5 percent protein content and Australian premium wheat (APW) is being quoted at \$332 (Rs 24000) per tonne and \$358 (Rs 25930) per tonne respectively, after including freight and import duty @30%. Local expenses will further add to cost. Whereas wheat mill quality price in Chennai and Coimbatore is ruling around Rs 23800-24000 per tonne and Rs 25000-25400 per tonne respectively.

All India weekly average prices decreased by 1.01 percent to Rs. 2040.39 per quintal during the week ended 08th November 2018. Wheat average price were ruling at Rs 2061.27 per quintal during 24-31 October 2018. As compared to prices in the week 01-08 November 2017, the prices are firm by 8.09 percent. Prices are expected to remain firm in coming days due to good domestic demand and low imports.

According to latest update, area sown until 07th November'18 is 15.19 lakh hectares compared to 12.65 lakh hectares in the previous Rabi season. Sowing has started in all major wheat producing states. The normal area is 304.39 lakh hectares. Acreage is expected to be higher this Rabi season due to increase in MSP by Rs 105 per quintal for MY 2018-19.

As per trade sources imported wheat from various origins to Tuticorin port witnessed weak tone in the week. As of now Ukrainian wheat is being quoted at Rs 2175-2185 per quintal. Australian Standard Wheat (ASW) and Australian Premium Wheat (APW) are not available in domestic market. Stock of imported wheat is very low.

Previous Updates:

As per trade source, India has exported around 2.80 thousand tonnes in the month of September compared to 1.90 thousand tonnes in August. The quantity in September was exported at an average FOB of \$ 381.68 per tonne and the major destinations were Nepal, UAE, Sri Lanka and New Zealand. Exports are likely to be at lower side as other countries are able to provide quality wheat at competitive prices.

As per fourth advance estimate, wheat production has been pegged at 99.70 MMT compared to 98.61 MMT in its third advance estimate issued in the month of May-2018. Total food grain output is expected to be around 284.43 MMT compared to 279.51 MMT in earlier estimate.

International Market Update:

Russian milling wheat prices became weak by \$1-3 per tonne at Novorossiysk and \$0-2 per tonne at Odessa compared to last week. Wheat prices were weak due to low export demand and increased competition among exporters. As per USDA, Russia is expected to produce 70.00 MMT in 2018 compared to 84.99 MMT in 2017. As of now Russian milling wheat with 12.5% protein content at Novorossiysk port is being quoted at FoB \$223.00-227.00/tonne and milling wheat with 12.5% protein content at Odessa is being quoted at FoB \$222.00-226.00/tonne.

As per latest update, Japan's ministry of agriculture bought 121488 MT of food quality wheat from United States and Canada. Around 60728 MT has been bought from United States and 60760 MT of western red spring has been bought from Canada. Shipments from United States and Canada will be loaded between Dec 21-2018 and Jan 20-2019.

As per latest update, Ukrainian wheat exports are expected to be lower for 2018-19 due to lower production. During July-Oct'18 Ukraine exported 7.54 MMT of wheat compared to 8.07 MMT last year in the same period.

Outlook: Cash market is expected to trade steady to firm in the near term.
