

Wheat Domestic Fundamentals:

As per latest update, wheat stock in central pool as on 1st December'18 stood at 306.29 lakh tonnes down by 7.56% compared to last month. This quantity is higher by around 41.38% compared to last year for the same month. Government has already applied import duty on wheat to curb imports and provide support to domestic prices The stock position as on 01st December'18 is highest in last four years. Therefore, government has abundant supplies this year to tackle any unexpected rise in wheat prices by selling more quantity in open market.

Wheat WPI has increased from 151.1 in October-2018 to 152.2 in November-2018. Monthly wheat inflation has increased by 0.73 percent in November -2018 compared to previous month. As compared to November -2017 wheat WPI has increased by around 9.18 percent. Wheat WPI is expected to stay steady to slightly firm in coming months.

According to latest update, area sown until 14th December'18 is 233.71 lakh hectares compared to 233.59 lakh hectares in the previous Rabi season. The normal area is 306.29 lakh hectares. Acreage is expected to be higher this Rabi season due to increase in MSP by Rs 105 per quintal for MY 2018-19.

All India weekly average prices increased by 1.17 percent to Rs. 2106.32 per quintal during the week ended 15th December 2018. Wheat average price were ruling at Rs 2081.95 per quintal during 01-08 December 2018. As compared to prices in the week 09-15 December 2017, the prices are firm by 18.70 percent. Prices are expected to remain firm in coming days due to good domestic demand and low imports.

India mainly imports from Australia and Russia. Wheat prices remained steady in Australia during last week. As of now, Russian wheat with 12.5 percent protein content and Australian premium wheat (APW) is being quoted at \$339.00 (Rs 24310) per tonne and \$354.00 (Rs 25390) per tonne respectively, after including freight and import duty @30%. Local expenses will further add to cost. Therefore, there is no import parity as of now from black sea region and Australia.

Indian FoB quote is hovering around \$301.30 per tonne. Against it Russia, Ukraine, France, US and Australia are offering wheat at \$224.50, \$224.50, Euro 204.19, \$225.38 and \$248.75 per tonne respectively. There is little hope for recovery at export front this year. However, India is expected to import around 0.3 million tonnes in MY 2018-19.

As per local traders, farmers are likely to switch from Pulses to Wheat crop in expectation of better profit margin in this season. Madhya Pradesh, Chhattisgarh, Bihar reported lower sowing area as of now due to scanty rainfall. Wheat acreage is likely to go up in the northern region, mainly in Uttar Pradesh and Madhya Pradesh. Punjab and Haryana have finished sowing area of this season. Wheat crop germinates better in wintery conditions. Wheat sowing has been delayed due to late maturity of paddy in this season. Falling temperatures is favorable for wheat crop cultivation. On the other hand, drought in Australia may lower global Wheat crop size.

Previous Updates:

As per fourth advance estimate, wheat production has been pegged at 99.70 MMT compared to 98.61 MMT in its third advance estimate issued in the month of May-2018. Total food grain output is expected to be around 284.43 MMT compared to 279.51 MMT in earlier estimate.

International Market Update:

Egypt's state grains buyer, GASC has purchased 180000 tonnes of wheat for shipment during 01-10 February. Of the total quantity 120000 tonnes was Russian wheat and 60000 tonnes was Romanian wheat. ADM offered 60000 tonnes of Romanian wheat at FoB \$241.26 per tonne, ADM offered 60000 tonnes of Russian wheat at FoB \$242.00 per tonne and Agro Industrial offered 60000 tonnes of Russian wheat at FoB \$242.00 per tonne and Agro State State

Russia has exported 20.74 MMT of wheat during July-November'18. Russia is expected to export 2.8 MMT of wheat in December-18. Export prices for Russian wheat are expected to stay slightly firm in near future due to exhausting stocks at ports, problems in grain transportation and obtaining phytosanitary certificate.

As per WASDE recent report of December month, EU is likely to produce around 137.60 MMT in 2018-19 compared to 151.26 MMT in 2017-18. Russia and Ukraine are likely to harvest 70 MMT and 25 MMT of wheat in 2018-19 respectively. Production in US is likely to be around 51.3 MMT compared to last year's 51.29 MMT. Australia is likely to produce 17 MMT in 2018-19 compared to 21.30 MMT in 2017-18. Argentina is expecting to harvest around 19.50 MMT in 2018-19 compared to 18.5 MMT in 2017-18. Furthermore, Canada is likely to harvest around 31.80 MMT in 2018-19 compared to 29.98 MMT in 2017-18.

Outlook: Cash market is likely to trade steady to firm in the near term on improved demand.
