

Wheat Domestic Fundamentals:

All India weekly average prices decreased by 0.28 percent to Rs. 2081.86 per quintal during the week ended 31st December 2018. Wheat average price were ruling at Rs 2087.77 per quintal during 16-23 December 2018. As compared to prices in the week 24-31 December 2017, the prices are firm by 9.83 percent. Prices are expected to remain firm in coming days due to good domestic demand and low imports.

India mainly imports from Australia and Russia. As of now, Russian wheat with 12.5 percent protein content and Australian premium wheat (APW) is being quoted at \$351.00 (Rs 24552) per tonne and \$382.82 (Rs 26770) per tonne respectively, after including freight and import duty @30%. Local expenses will further add to cost. Therefore, there is no import parity as of now from black sea region and Australia.

According to latest update, area sown until 28th December'18 is 277.37 lakh hectares compared to 274.16 lakh hectares in the previous Rabi season. The normal area is 306.29 lakh hectares. Acreage is expected to be higher this Rabi season due to increase in MSP by Rs 105 per quintal for MY 2018-19.

Government has offered 6912900 tonnes of wheat in OMSS since July until third tender in December out of which 4129200 tonnes was sold. Total numbers of rakes sold were 181. State government and bulk consumers bought 481500 tonnes and 3504600 tonnes of wheat respectively. 143100 tonnes was sold in dedicated movement. Government will sell wheat in open market at a reserve price of Rs 1900 per quintal in the second quarter i.e. July-September. For third and fourth quarter prices will be Rs 1925 per quintal and Rs 1950 per quintal respectively.

In past days, minimum as well as maximum temperature has dropped below normal in Punjab and Haryana. The fall in temperature will boost the growth of shoots, which will lead to an increase in yield. Low temperature will help to retain soil moisture, which otherwise would have adversely impacted the crop due to absence of rain.

As per trade sources, after increase in import duty to 30 percent imports have decreased substantially. India has imported no wheat in the month of November-2018. Imports are expected to be low this year due to good domestic availability and increase in import duty. India has imported around 1000 tonnes in the month of September-2018.

As per trade source, India has exported around 2.73 thousand tonnes in the month of November compared to 5.09 thousand tonnes in October. The quantity in November was exported at an average FOB of \$ 416.11 per tonne and the major destinations were Nepal, Sri Lanka and Somalia. Exports are likely to be at lower side as other countries are able to provide quality wheat at competitive prices.

Previous Updates:

As per fourth advance estimate, wheat production has been pegged at 99.70 MMT compared to 98.61 MMT in its third advance estimate issued in the month of May-2018. Total food grain output is expected to be around 284.43 MMT compared to 279.51 MMT in earlier estimate.

International Market Update:

Russian milling wheat prices became firm by \$9 per tonne at Novorossiysk and \$8 per tonne at Odessa compared to last week. Wheat prices were firm due to unfavorable weather in Argentina and low export potential. As per IGC, Russia is expected to produce 69.50 MMT in 2018 compared to 84.90 MMT in 2017. As of now Russian milling wheat with 12.5% protein content at Novorossiysk port is being quoted at FoB \$235.00-241.00/tonne and milling wheat with 12.5% protein content at Odessa is being quoted at FoB \$232.00-238.00/tonne.

Egypt's state grains buyer, GASC has purchased 120000 tonnes of wheat for shipment during 01-10 February. Of the total quantity 60000 tonnes was Romanian wheat and 60000 tonnes was Ukrainian wheat. Louis Dreyfus offered 60000 tonnes of Ukrainian wheat at FoB \$246.40 per tonne and CHS offered 60000 tonnes of Romanian wheat at FoB \$248.75 per tonne.

As per latest update, Japan's ministry of agriculture bought 106100 MT of food quality wheat from United States and Canada. Around 71040 MT has been bought from United States and 35060 MT of western red spring has been bought from Canada. Shipments from United States and Canada will be loaded between Jan 16-2019 and Feb 15-2019.

Russia has exported 20.74 MMT of wheat during July-November'18. Russia is expected to export 2.8 MMT of wheat in December-18. Export prices for Russian wheat are expected to stay slightly firm in near future due to exhausting stocks at ports, problems in grain transportation and obtaining phytosanitary certificate.

Outlook: Cash market is likely to trade steady to firm in the near term on improved demand.
