

Wheat Domestic Fundamentals:

All India weekly average prices increased by 4.12 percent to Rs. 2167.57 per quintal during the week ended 08th January 2019. Wheat average price were ruling at Rs 2081.86 per quintal during 24-31 December 2018. As compared to prices in the week 01-08 January 2018, the prices are firm by 11.61 percent. Prices are expected to remain firm in coming days due to good domestic demand and low imports.

India has received 14.70 mm of actual rainfall against 16.60 mm of normal rainfall during the month of December. During this time period, deficient rainfall was recorded in major wheat producing regions of Punjab, Haryana, Uttar Pradesh, Madhya Pradesh and Rajasthan. India has received 16.2 mm of rainfall during December-2017. Actual rainfall was below normal in December-18, however low temperature in Punjab, Haryana, Uttar Pradesh, Maharashtra and Madhya Pradesh will help in retaining soil moisture. Furthermore Rajasthan had one of the coldest December, which is favorable for wheat but chickpeas have been affected.

According to latest update, area sown until 04th January'18 is 288.37 lakh hectares compared to 283.55 lakh hectares in the previous Rabi season. The normal area is 306.29 lakh hectares. Acreage is expected to be higher this Rabi season due to increase in MSP by Rs 105 per quintal for MY 2018-19. Acreage of wheat in Madhya Pradesh is higher as farmers have shifted from chickpea. This year, as on 04th January'18, farmers have sowed 59.00 lakh hectares of wheat in Madhya Pradesh compared to 44.53 Lakh hectares last year on same date.

Indian FoB quote hovered around \$300.53-312.14 per tonne in December. Against it Russia, Ukraine, France, US and Australia were offering wheat at \$222.50-235.50, \$221.00-234.50, Euro 199.50-206.75, \$220.40-230.00 and \$244.55-259.15 per tonne respectively. Wheat prices in international markets witnessed steady to firm tone in December.

As per trade sources, after increase in import duty to 30 percent imports have decreased substantially. India has imported no wheat in the month of November-2018. Imports are expected to be low this year due to good domestic availability and increase in import duty. India has imported around 1000 tonnes in the month of September-2018.

As per trade source, India has exported around 2.73 thousand tonnes in the month of November compared to 5.09 thousand tonnes in October. The quantity in November was exported at an average FOB of \$ 416.11 per tonne and the major destinations were Nepal, Sri Lanka and Somalia. Exports are likely to be at lower side as other countries are able to provide quality wheat at competitive prices.

Previous Updates:

As per fourth advance estimate, wheat production has been pegged at 99.70 MMT compared to 98.61 MMT in its third advance estimate issued in the month of May-2018. Total food grain output is expected to be around 284.43 MMT compared to 279.51 MMT in earlier estimate.

International Market Update:

Algeria state grains agency OAIC has bought around 55000 tonnes of milling wheat in a tender that closed on Tuesday. The prices paid were in the range of \$261.50 - \$262.00 per tonne (Cost and Freight). The quantity to be shipped is due in Mid-February to Mid-March. The origin is optional.

Drought in Australia has led Agrocrops to import 33000 MT of wheat from west Australia to east Australia. West Australia wheat is generally exported to Asia and Middle-East. Therefore, west Australia wheat is being imported by east to meet the local demand.

Bangladesh has witnessed a tremendous growth in imports in past five years, due to change in consumption pattern of population. Imports have increased from 1.8 MMT in FY 2012-13 to 5.4 MMT in FY 2016-17. Bangladesh is likely to import wheat from black sea region in near future.

Russia has imposed a ban on import of more than fifty products, including wheat, from Ukraine. This is a tit-for-tat measure by the Russian government as Ukraine has banned import of more than 30 products in December-18.

Russian milling wheat prices became firm by \$9 per tonne at Novorossiysk and \$8 per tonne at Odessa compared to last week. Wheat prices were firm due to unfavorable weather in Argentina and low export potential. As per IGC, Russia is expected to produce 69.50 MMT in 2018 compared to 84.90 MMT in 2017. As of now Russian milling wheat with 12.5% protein content at Novorossiysk port is being quoted at FoB \$235.00-241.00/tonne and milling wheat with 12.5% protein content at Odessa is being quoted at FoB \$232.00-238.00/tonne.

Outlook: Cash market is likely to trade steady to firm in the near term on improved demand.
