

Wheat Domestic Fundamentals:

Mandis in Gujarat are closed due to March ending.

As per latest update, wheat purchase has started in Madhya Pradesh and around 5000 quintals have been purchased from 119 cultivators. Only fair average quality (FAQ) wheat will be procured. Farmers are being informed that they should bring their produce after using fan-strainer and drying it properly.

India mainly imports from Australia and Russia. Wheat prices recovered slightly in past week. As of now, Russian wheat with 12.5 percent protein content and Australian premium wheat (APW) is being quoted at \$338.00 (Rs 23345.66) per tonne and \$337.84 (Rs 22335.89) per tonne respectively, after including freight and import duty @30%. Local expenses will further add to cost. Whereas wheat mill quality price in Chennai and Coimbatore is ruling around Rs 22000 per tonne and Rs 22500 per tonne respectively.

All India weekly average prices decreased by 2.53 percent to Rs. 2016.74 per quintal during the week ended 23rd March 2019. Wheat average price were ruling at Rs 2069.03 per quintal during 09-15 March 2019. As compared to prices in the week 16-23 March 2018, the prices are firm by 13.82 percent. Prices are expected to remain weak in coming days due to abundant availability in domestic market.

Government has offered 11092250 tonnes of wheat in OMSS since July'18 until second tender in March'19 out of which 8042000 tonnes was sold. Total numbers of rakes sold were 195. State government and bulk consumers bought 748050 tonnes and 6777200 tonnes of wheat respectively. 516750 tonnes was sold in dedicated movement. Government will sell wheat in open market at a reserve price of Rs 1900 per quintal in the second quarter i.e. July-September. For third and fourth quarter prices will be Rs 1925 per quintal and Rs 1950 per quintal respectively.

As per trade sources, after increase in import duty to 30 percent imports have decreased substantially. India has imported no wheat in the month of February-19. Imports are expected to be low this year due to good domestic availability and increase in import duty. India has imported around 1000 tonnes in the month of September-2018.

As per trade source, India has exported around 6.35 thousand tonnes in the month of February-2019. The quantity in February-2019 was exported at an average FOB of \$ 403.91 per tonne and the major destinations were Nepal, UAE and Kuwait. Exports are likely to be at lower side as other countries are able to provide quality wheat at competitive prices.

India is planning to boost its export of Rice and wheat through G2G trade and by participating in tenders floated by countries to procure food. Iraq has expressed interest in procuring wheat and rice from India. Iraq has an annual requirement of 4 MMT of wheat, of which around 1 MMT is imported. This will also help India in reducing overflowing stock of wheat and rice in domestic market.

As per market sources, wheat stock in central pool as on 1st March'19 stood at 201.09 lakh tonnes down by 15.97% compared to last month. This quantity is higher by around 32.69% compared to last year for the same month. Government has already applied import duty on wheat to curb imports and provide support to domestic prices. The stock position as on 01st March'19 is highest in last four years. Therefore, government has abundant supplies this year to tackle any unexpected rise in wheat prices by selling more quantity in open market.

Wheat market is likely to remain weak in upcoming days due to ample availability in domestic market and expectation of good production in MY 2019-20. Despite abundant availability India was not able to export much as other countries are able to provide wheat at lower prices. Imports remained at lower side in MY 2018-2019.

International Market Update:

Russian milling wheat prices became firm by \$5 per tonne at Novorossiysk and \$5-6 per tonne at Odessa compared to last week. High domestic prices and strong ruble supported Russian wheat prices. As per IGC, Russia is expected to produce 71.60 MMT in 2018-19 compared to 85.10 MMT in 2017-18. As of now Russian milling wheat with 12.5% protein content at Novorossiysk port is being quoted at FoB \$225.00-230.00/tonne and milling wheat with 12.5% protein content at Odessa is being quoted at FoB \$223.00-228.00/tonne.

Taiwan flour mills association has bought 110000 tonnes of milling wheat from United States. Of the total quantity, 27910 tonnes of U.S. dark northern spring wheat of 14.5 percent protein content bought at FOB \$254.13 per tonne, 19665 tonnes of hard red winter wheat of 12.5 percent protein content was bought at FoB \$244.88 per tonne and 7425 tonnes of soft white wheat with 9 percent protein was bought at FoB \$222.30 per tonne. The seller was trading house Cargill.

Major feed mill group of South Korea has purchased around 65000 tonnes of feed wheat at \$212.99/tonne cost and freight. Around \$1.25 per tonne will be charged for port unloading. Feed wheat can be sourced from any optional worldwide origins. The seller is believed to be trading house Olam.

Outlook: Cash market is likely to trade steady to weak in the near term.
